Stamm,2018-10-16 A deep and timely account of how American newspapers were produced and distributed on paper Winner
of the Best Book in Canadian Business History by the Canadian Business History Association Popular assessments of printed
newspapers have become so grim that some have taken to calling them dead tree media as a way of invoking the medium s
imminent demise There is a literal truth hidden in this dismissive expression printed newspapers really are material goods
made from trees And throughout the twentieth century the overwhelming majority of trees cut down in the service of printing
newspapers in the United States came from Canada In *Dead Tree Media* Michael Stamm reveals the international history of
the commodity chains connecting Canadian trees and US readers Drawing on newly available corporate documents and
research in archives across North America Stamm offers a sophisticated rethinking of the material history of the printed
newspaper Tracing its industrial production from the forest to the newsstand he provides an account of the obscure and often
hidden labor involved in this manufacturing process by showing how it was driven by not only publishers and journalists but
also lumberjacks paper mill workers policymakers chemists and urban and regional planners Stamm describes the 1911 shift
in tariff policy that gave US publishers duty free access to Canadian newsprint providing a tremendous boost to Canadian
paper manufacturers and a significant subsidy to American newspaper publishers He also explains how Canada attracted
massive American foreign investment in paper mills around the same time that US publishers were able to gain greater
access to Canada s vast spruce forests Focusing particularly on the Chicago Tribune Stamm provides a new history of the
rise and fall of both the mass circulation printed newspaper and the particular kind of corporation in the newspaper business
that had shaped many aspects of the cultural political and even physical landscape of North America For those seeking to
