We sincerely invite experts, scholars, business people, and other relevant people from universities and scientific research institutions at home and abroad to attend the conference.

Technology, Intellectual Property Law and Culture Megan Rae Blakely, 2024-06-18. Focusing on cultural expressions that are most likely to intermingle with copyright, law, trademark, and IP adjacent regulations, this book examines contemporary issues in technology, intellectual property law, and culture. Intangible Cultural Heritage can consist of traditional knowledge, songs, craftsmanship, dance, and other practices, as well as the associated cultural artefacts and spaces. A widely varied global living heritage transmitted generationally must be allowed to organically evolve, often defying the process of identification so desirable in the realm of legal protections. This nebulous essence is particularly ill suited to modern legal frameworks that can conflate the creative outputs that copyright is meant to protect with shared cultural practices. Combining a legal perspective with historical tact, the book develops a theoretical model to track the interaction amongst these issues, as well as to make policy recommendations based on the existing and projected possible future outcomes. Several chapters of the book will be dedicated to contemporary issues where this framework and interaction are currently developing, focussing on law and technology issues with archiving and museums, online platforms, and copyright infringement and communities and creative production in virtual worlds. The book will be of interest to students and scholars in the field of copyright law and intellectual property law.

Challenges to US and Mexican Police and Tourism Stability Peter E Tarlow, 2023-04-21. Challenges to US and Mexican Police and Tourism Stability examines the impacts that historical political and social campaigns targeting police practices have had on law enforcement in general and on the tourism industry in particular, specifically focusing on recent developments in both the USA and Mexico.

Exploring Services Science Theodor Borangiu, Monica Drăgoicea, Henriqueta Nóvoa, 2016-05-18. This book contains the refereed proceedings of the 7th International Conference on Exploring Service Science (IESS) held in Bucharest, Romania, in May 2016. Service science constitutes an interdisciplinary approach to systematic innovation in service systems, integrating managerial, social, legal, and engineering aspects to address the theoretical and practical challenges of the service industry and its economy. The 45 full papers and 13 short papers accepted for IESS were selected from 119 submissions. The papers consider the topics: service exploration theories and processes; modeling service requirements and management of business processes; value co-creation through knowledge management and user-centric services; service design methodologies and patterns; service innovation and strategy; IT-based service engineering; servitization in sustainable manufacturing; product service systems; business software services; and data-driven service design; web service design; and service-oriented agents.
