Womack,2015-12-15 Though few realize it the Netherlands East Indies were the object of Japan s attack on Pearl Harbor in December 1941 Likewise their invasions of Guam Wake Island and the Philippines were mainly diversionary operations to safeguard their main assault on Dutch and British colonies Since the end of World War I Japan had coveted the vast East Indies oil reserves and the colony had feared invasion since Germany overran Holland in May 1940 Isolated politically the weakly defended archipelago was a tempting prize The East Indies government initially maintained a strict policy of neutrality while desperately working to build up its military strength As Japanese actions pushed the region toward war the Dutch reluctantly embraced closer ties with America and Britain For a brief period the East Indies were key players in Pacific War strategy This book details for the first time in English the Dutch prewar strategy their efforts to counter Japanese espionage and their sizable though largely forgotten military contribution in the early months of the Pacific War Hitler. Cooper,2025-05-15 Many people may know about the blazing crash of the Hindenburg in 1937 but are possibly unaware that it had made 62 flights before its final journey including one transporting author Leslie Charteris creator of The Saint The disaster however did not end the airship era blimps escorted convoys during World War II and were a part of air defense systems in the 1950s and 1960s Airships still fly today and new models are in the construction phase This book examines this branch of aviation history delving into the science and engineering of airships and their design flaws weather difficulties and operational errors The chapters focus on function lift propulsion materials ground handling and so forth The book concludes with speculations about future airship designs and missions Keane on Company Law Brian Hutchinson,2017-02-03 Keane on Company Law Fifth Edition previously Company Law by Justice Ronan Keane covers the Companies Act 2014 and is essential reading for students solicitors and barristers alike This latest edition of Judge Keane s highly regarded text on Irish company law is substantially revised and updated to cover the Companies Act 2014 as amended up to October 2016 and also covers the many developments in the case law since the fourth edition was published in 2006 Hardly any aspect of company law is left untouched in some way by the 2014 Act The Act not only repeals the prior

Companies Acts and replaces them with a consolidated code but also introduces many innovations designed to make companies more accessible to those doing business and to streamline corporate compliance and procedures. The Act creates two new forms of private company: the private company limited by shares (LTD) which enjoys concessions not previously available to private companies and the designated activity company (DAC) which more closely resembles to private company known under the former legislation. It also overhauls the requirements relating to other forms of company namely PLCs, guarantee companies, CLGs and unlimited companies while also clarifying and extending the obligations of external companies which operate in Ireland. Among the key changes are the effective abolition of the ultra vires rule which has applied to all companies up to now and changes in the requirements relating to the constitutions of companies. The Act also changes the rules regarding company capital and makes significant changes to the law concerning the registration of company charges, the conduct of windings up, the passing of written resolutions and the approval of certain transactions which previously were either prohibited or required Court approval by a new Summary Approval Procedure involving a special resolution combined with an appropriate declaration by the directors subject to safeguards to prevent improper use. The Act also codifies the previously common law fiduciary duties of directors and substantially modifies the regime regarding disclosure and approval of transactions involving directors. The Act also introduces new procedures whereby Irish companies can be merged or divided. Recent amendments to the Act have added further requirements regarding statutory audit and auditors and impending changes addressed in this edition will alter the regime governing annual financial statements and impose filing requirements on unlimited companies. Meanwhile the courts have been busy particularly in the areas of restriction and disqualification of directors and examinership but also notably in the areas of company charges, reservation of title, financial assistance in the purchase of shares to mention but a few. All these changes to Irish company legislation are covered in this new edition which continues in the accessible and user friendly but authoritative style for which previous editions have made the work a renowned standard.
