Czech Republic International Monetary Fund. European Dept.,2018-06-29 This 2018 Article IV Consultation highlights that Czech Republic s growth has been strong broad based and job rich The economy grew at 4.4 percent in 2017 led by strong domestic demand The unemployment rate fell to a record low of 2.3 percent in April 2018 even with increased participation Meanwhile headline and core inflation are close to the target of 2 percent Growth is projected to remain strong this year at 3.7 percent but labor shortages are putting constraints on future growth In the near term a decline in global trade is a major risk for a small economy highly dependent on external demand particularly from the euro area but also indirectly from other regions given how tightly integrated is the Czech economy into supply chains
