The inclination towards two wheelers is not newer to the world. From the very beginning, two wheelers are recognized as a mark of triumph, independence and joy. These are considered fast, safe and easy mode of transportation with worthy fuel economy. With the arrival of automation and electronics in two wheelers, the study gained more momentum which led Two and Three Wheeler Technology to emerge as a new discipline of automobile engineering. The book explains traditional and modern technologies in an easy to understand manner. Various technologies have been explicated with appropriate 2D and 3D diagrams to support learning. Text comprises the state of the art developments in the field of two wheelers. Detailed explanation on the actual assemblies helps the students to cognize the technology systematically. Although the emphasis has been given to the two wheeler technology, considering the requirement of various syllabi, the last chapter is solely dedicated to three wheeler technology. Chapter end review questions help students in preparing them for examination by self assessment method. Primarily designed for the undergraduate and diploma students of automobile engineering, the lucid and simple presentation of the book makes it useful for the commoner who has keen interest in this area. It is a useful guide for a vehicle owner for understanding mechanism and parts which may help him in maintaining his vehicle at best efficiency.

Hutchy - Miracle Man Ian Hutchinson, 2016-10-17 Ian Hutchinson Hutchy to his many thousands of fans is a motorcycle racer like few others A road racer to the core he has enjoyed spectacular success notably at the Isle of Man TT but his own story goes far beyond even those triumphs In the summer of 2010 Hutchy set the record for most wins in a single TT festival five in all having already won the Supersport class at the North West 200 in Northern Ireland Then disaster struck At a British

Supersport round at Silverstone in September that year he crashed heavily and was struck by another rider's machine breaking his left leg so badly that at one stage it was feared it might have to be amputated. After many surgical operations and a long period of recovery he fractured the same leg in 2012 while practising exhibition riding for a motorcycle show. Yet not even these disasters could keep the Yorkshireman from racing. After modifications to the rear brake and gear levers on his race machines he went out and won the 2013 Macau Grand Prix. Two years later saw an even more staggering return to form when he secured three wins, a second and a third place at the 2015 Isle of Man TT, also winning the Joey Dunlop TT Championship Trophy for that year. And 2016 was to prove even better. Honest, brave and quirkily amusing, Hutchy Miracle Man presents Hutchy's own accounts and opinions with those of various celebrated figures from the world of motorcycle racing. It is a book not only for fans of road racing but for anyone interested in the life and career of a brilliant rider and an extraordinarily brave and enduring man, justly popular not just for his achievements but for his unassuming modesty, kindness and humour.

The MotoLady's Book of Women Who Ride Alicia Mariah Elfving, 2021-05-18
Written and curated by Alicia Mariah Elfving, founder of TheMotoLady.com and the Women's Motorcycle Show and arguably the most notable advocate for women in the motorcycling hobby. The MotoLady's Book of Women Who Ride subverts all the tired women and motorcycle tropes, offering the true stories of the women past and present who ride and wrench as well as anyone, proving every bit as indispensable to maintaining and growing a positive motorcycling culture. Historically, depictions of women in motorcycle culture tend to objectify from the outlaw motorcycle club biker babe to cheesecake photography to posturing celebrities with motorcycles as props. The truth is much different. From the early days of motorcycle culture more than 100 years ago, women have played a central role in making the motorcycle a legitimate form of transportation, recreation and motorsport. Elfving presents more than 70 figures in the motorcycle world from the Americas to Europe and even the Middle East and South Asia: stunt riders, racers, builders, customizers, organizers and more. Elfving links today's women motorcyclists with those of the past and illustrates the freedom represented by two wheels and how motorcycles allow women to transcend cultural expectations confidently. You'll meet riders such as Sofi Tsingos who raises money for charities by building and auctioning motorcycles; Safety ambassador Brittany Morrow who found her calling after surviving a high-speed crash with no gear; The Van Buren sisters who in 1916 were among the first motorcyclists to ride coast to coast and the first women to ride to the summit of Pikes Peak; The late Jessi Combs, an iconic TV personality, metal fabricator and land speed record holder. Overwhelmingly positive, Elfving instills confidence and can do rather than providing an echo chamber of common complaints among women in motorcycling. In addition, The MotoLady's Book of Women Who Ride is illustrated throughout with contemporary and historical photos of the author's subjects, comprising a beautiful as well
