participants embraced the industry as a local identifier and indicates how the industry's efforts have rekindled the residents' interest in agriculture as a significant element of regional heritage and local identities. Revealing how the profiles of local narratives and commemorations become entwined with social, cultural, economic, and political power, *Meaningful Pasts* illuminates the fact that local narratives retain their relevance only if residents find them meaningful in their day-to-day lives.

**The Death and Life of Gentrification** Japonica Brown-Saracino, 2026-01-13 A provocative account of what is gained and what is lost when a word that once narrowly referred to neighborhood change takes on a life all its own. Sociologist Ruth Glass coined the term gentrification in the 1960s to mark the displacement of working-class residents in London neighborhoods by the professional classes. *The Death and Life of Gentrification* traces how the word has far outgrown Glass's meaning, becoming a socially charged metaphor for cultural appropriation, upscaling, and the loss of authenticity. In this lively and insightful book, Japonica Brown-Saracino traces how a concept originally intended to describe the brick-and-mortar transformation of neighborhoods has come to characterize transformations that have little to do with cities. She describes how journalists, artists, filmmakers, novelists, and academics use gentrification as a symbolic device to mourn how everyday pleasures and forms of self-expression, from music to marijuana, kale, and tattoos, entered the domain of the elite. She weighs the implications of turning to gentrification as a tool to tell stories, entertain audiences, and communicate political messages. Relying on vivid examples, the book reveals how the term today expresses widespread ambivalence about rising economic inequality and unease with a variety of forms of social change. This pathbreaking book forces us to think about whether the wide-ranging way we use gentrification dilutes its meaning and stymies efforts to identify and resist urban displacement. Drawing on everything from film and television to novels and art, *The Death and Life of Gentrification* sheds critical light on the changing meaning of gentrification in contemporary life. The book is a must-read for anyone interested in gentrification and urban dynamics, as well as for readers curious about attitudes about growing income inequality and the evolution and circulation of ideas.

Golden States Eileen Luhr, 2024-09-03 Whether they were utopian communarians, sun-seeking gurus, or Protestant health reformers, Southern California's spiritual seekers drew on the United States' deepening global encounters and consumer cultures to pair religious and personal reinvention with cultural and spiritual revitalization. Through a rereading of the region's cultural landscape, *Golden States* provides an alternative history of California religion and spirituality, showing that seekers developed a number of paths to fulfillment that enhanced the region's lifestyle brand. Drawing on case studies as varied as surfing and yoga practices, Dr. Bronner's Magic Soaps, and the only designated Blue Zone in the United States, this work explores the long-term impact of alternative beliefs on the region. In doing so, it highlights the ongoing tensions between privileging personal choice and pursuing social good as communities navigated whether the commitment to the emotional and therapeutic needs and desires of individual believers should be pursued at the expense of broader efforts to achieve collective well-being.
