Timor-Leste's Long Road to Independence Zelia Pereira, Rui Graça Feijó, 2025-10-01 From a much neglected Portuguese colony to independence Timor Leste travelled a belated long and troubled journey that included a 24 year Indonesian occupation A classic process of European decolonization 1974 1975 was followed by a nationalist struggle against Third World Colonialism 1975 1999 and a final phase under the direct aegis of the United Nations 1999 2002 More than a direct relation between coloniser and colonised this turbulent process involved the participation of many different actors scattered around the world The Timor Issue brought to the scene a martyred people's determination the diplomacy of several nations friends or foes the involvement of the United Nations and the activism of solidarity networks This collection adopts a transnational approach that highlights the complexity

of Timor Leste's road to independence **Democracy, Elections, and Constitutionalism in Africa** Charles M. Fombad, Nico Steytler, 2021-03-18 The third wave of democracy that reached African shores at the end of the Cold War brought with it a dramatic decline from 1990 onwards in dictatorships military regimes one party governments and presidents for life Multiparty democracy was at the core of the constitutional revolutions that swept through most of Africa in those watershed years However that wave is either losing momentum or receding or being reversed in its entirety This volume examines democracy and elections in Africa a focus motivated by two concerns First after 30 years it is important to take stock of the state of constitutional democracy on the continent The democratic gains of the 1990s and 2000s seem to be falling by the wayside with the evidence mounting that regimes are concealing authoritarianism under the veneer of elections doing so in an international context where populist regimes are on the rise and free and fair multiparty elections are consequently no longer a given It is becoming a battle to protect and retain constitutional democracy The second reason for this volume's focus on democracy and elections is that multiparty democracy is essential for the proper functioning of the state in addressing the major problems facing Africa internal conflict inequality and lack of development and poor governance and corruption The focus of this volume is thus on how competitive politics or multiparty democracy can be realized and how through competition such politics could lead to better policy and practice outcomes
