In this edition of the acclaimed anthology series, Strayed has gathered twenty-six essays that each capture an inexorable tectonic shift in life. Personal and deeply perceptive, this collection examines a broad range of life experiences: from a man's relationship with Mormonism to a woman's search for a serial killer; from listening to the music of Joni Mitchell to surviving five months at sea; from triaging injured soldiers to giving birth to a daughter; and much more. *The Best American Essays 2013* includes entries by Alice Munro, Zadie Smith, John Jeremiah Sullivan, Dagoberto Gilb, Vicki Weiqi Yang, J.D. 538 Five-Thirty-Eight Joe Albanese, 2024-10-03 In this book Joe Albanese observes that when the Electoral College was established in 1787 there were no daily newspapers and it took weeks for important news to reach the public. Moreover, the nation had just obtained its independence after a brutal war. The author lays out the pros and cons of the Electoral College system, making the case that how we elect our president runs contrary to principles of an equal democratic government. He also answers questions such as: Does the Electoral College system pose a danger to democracy? Why has the concept of one person, one vote been overlooked? Why have previous attempts to abolish the Electoral College failed? History shows that for a nation to succeed and prosper it must develop procedures for the peaceful and orderly transfer of political power from one generation to the next. Join the author as he considers how we can reform our electoral process and make every vote truly count.

Teaching and Researching Writing Ken Hyland, 2015-11-19 This third edition of *Teaching and Researching Writing* continues to build upon the previous editions' work of providing educators and practitioners in applied linguistics with a clearly written and complete guide to writing research and teaching. The text explores both theoretical and conceptual questions, grapples with key issues in the field today, and demonstrates the dynamic relationship between research and teaching methods and practice. This revised third edition has been reorganized to incorporate new topics, including discussions of technology, identity, and error correction, as well as new chapters to address the innovative directions the field has taken since the previous edition's publication. Boxes throughout, including Concepts and Quotes, help to both reinforce readers' understanding of the topics covered by highlighting key ideas and figures in the field, while the updated glossary and resource sections allow readers to further investigate areas of interest. This updated edition of *Teaching and Researching Writing* is the ideal resource for language teachers, practitioners, and researchers to better understand and apply writing research theories, methods, and practices.

The Poor Children April L. Ford, 2015-04-01 This edgy, stunning collection deftly examines the underbelly of the human condition through a cross section of fascinating characters: a correctional officer fixated on a juvenile offender, a Goth teenager and her werewolf boyfriend, a pyromaniac by happenstance, and a set of twins haunted by an unconfirmed death. Pushing beyond the norms of daily life and into the sometimes morally lawless worlds of her characters, Ford explores the eccentric, the perverse, the disenfranchised, and the darkly comic possibilities at play in us all.
