Proving in the Elementary Mathematics Classroom Andreas J. Stylianides, 2016 Although proving is core to mathematics as a sense making activity it currently has a marginal place in elementary classrooms internationally Blending research with practical perspectives this book addresses what it would take to elevate the place of proving at elementary school The book uses classroom episodes from two countries to examine different kinds of proving tasks and the proving activity they can generate in the elementary classroom It examines further the role of teachers in mediating the relationship between proving tasks and proving activity including major mathematical and pedagogical issues that arise for teachers as they implement each kind of proving task In addition to its contribution to research knowledge the book has important implications for teaching curricular resources and teacher education

Using Grading to Support Student Learning Matt Townsley, 2022-06-22. Using Grading to Support Student Learning offers an accessible foundation for using grading practices to support student learning through classroom assessment. Purposeful, defensible grading and reporting mechanisms cannot be neglected in today's reform climate, and new approaches are needed to understand and refine the roles of homework, formative and summative assessments, and standards across grade levels. Evidence-based and full of illustrative examples, this book bridges research and theory on grading and assessment with classroom practices for pre-service and in-service teachers and fresh perspectives for educational researchers studying grading practices.

International Conference on Education and Management Science (ICEMS2014), 2014-09-24. 2014 International Conference on Education and Management Science (ICEMS2014) will be held in Beijing, China, on August 19-20, 2014. The main purpose of this conference is to provide a common forum for researchers, scientists, and students from all over the world to present their recent findings, ideas, developments, and application in the border areas of Education and Management Science. It will also report progress and development of methodologies, technologies, planning, and implementation tools and standards in information systems. Education is an internal topic. It is a process of delivering knowledge in a basic meaning. Humans are hard to define the actual definition of education. But it is the key point for our society to step forward. Management science is the discipline that adapts the scientific approach for problem solving to help managers making informed decisions. The goal of management science is to recommend the course of action that is expected to yield the best outcome with what is available.
