Planning for Community-based Disaster Resilience Worldwide Adenrele Awotona,2016-10-14 We are witnessing an ever increasing level and intensity of disasters from Ecuador to Ethiopia and beyond devastating millions of ordinary lives and causing long term misery for vulnerable populations Bringing together 26 case studies from six continents this volume provides a unique resource that discusses in considerable depth the multifaceted matrix of natural and human made disasters It examines their bearing on the loss of human and productive capital the conduct of national policies and the setting of national development priorities and on the nature of international aid and bilateral assistance strategies and programs of donor countries In order to ensure the efficacy and appropriateness of their support for disaster survivors international agencies humanitarian and disaster relief organizations scholars non governmental organizations and members of the global emergency management community need to have insight into best practices and lessons learned from various disasters across national and cultural boundaries The evidence obtained from the numerous case studies in this volume serves to build a worldwide community that is better informed about the cultural and traditional contexts of such disasters and better enabled to prepare for respond to and finally rebuild sustainable communities after disasters in different environments The main themes of the case studies include the need for community planning and emergency management to unite in order to achieve the mutual aim of creating a sustainable disaster resilient community coupled with the necessity to enact and implement appropriate laws policies and development regulations for disaster risk reduction the need to develop a clear set of urban planning and urban design principles for improving the built environment's capacities for disaster risk management through the integration of disaster risk reduction education into the curricula of colleges and universities the need to engage the whole community to build inclusive governance structures as prerequisites for addressing climate change vulnerability and fostering resilience and sustainability Furthermore the case studies explore the need to link the existence and value of scientific knowledge accumulated in various countries with decision making in disaster risk management and the relevance and transferability from one cultural context to another of the lessons learned in building institutional frameworks for whole community partnerships

**Disaster Studies** Janki Andharia,2020-03-25 This book covers several dimensions of disaster studies as an emerging discipline It is the inaugural

book in the series Disaster Studies and Management and deals with questions such as Is disaster management a field of practice a profession or simply a new area of study Exploring intersectionalities the book also examines areas of research that could help enhance the discourse on disaster management from policy and practice perspectives revisiting conventional event centric approaches which are the basis for most writings on the subject Several case studies and comparative analyses reflect a critical reading of research and practice concerning disasters and their management The book offers valuable insights into various subjects including the challenge of establishing inter and multi disciplinary teams within the academia involved in disaster studies and sociological and anthropological readings of post disaster memoryscapes Each of the contributors has an enduring interest in disaster studies thus enriching the book immensely This book will be of interest to all the students and scholars of disaster studies and disaster management as well as to practitioners and policymakers

**Routledge Handbook of National and Regional Ocean Policies** Biliana Cicin-Sain, David Vanderzwaag, Miriam C. Balgos, 2015-05-15 This comprehensive handbook prepared by leading ocean policy academics and practitioners from around the world presents in depth analyses of the experiences of fifteen developed and developing nations and four key regions of the world that have taken concrete steps toward cross cutting and integrated national and regional ocean policy All chapters follow a common framework for policy analysis While most coastal nations of the world already have a variety of sectoral policies in place to manage different uses of the ocean such as shipping fishing oil and gas development in the last two decades the coastal nations covered in the book have undertaken concerted efforts to articulate and implement an integrated ecosystem based vision for the governance of ocean areas under their jurisdiction This includes goals and procedures to harmonize existing uses and laws to foster sustainable development of ocean areas to protect biodiversity and vulnerable resources and ecosystems and to coordinate the actions of the many government agencies that are typically involved in oceans affairs The book highlights the serious conflicts of use in most national ocean zones and the varying attempts by nations to follow the prescriptions emanating from the 1982 UN Law of the Sea Convention and the outcomes of the 1992 2002 and 2012 sustainable development summits The interrelationship among uses and processes in the coast and ocean requires that ocean governance be integrated precautionary and anticipatory Overall the book provides a definitive state of the art review and analysis of national and regional ocean policies around the world

**The Road to Unfreedom** Timothy Snyder, 2018-04-05 From the author of international bestseller On Tyranny this prescient analysis of Russia's ongoing interference in the West is now more relevant than ever One of the best brisk conceptually convincing account of democracy's retreat in the early years of 21st century Guardian The past is another country the old saying goes The same might be said of the future But which country For Europeans and Americans today the answer is Russia In this visionary work of contemporary history Timothy Snyder shows how Russia works within the West to destroy the West by supporting the far right in Europe invading Ukraine in 2014 and waging a cyberwar during the 2016 presidential campaign and the EU

referendum Nowhere is this more obvious than in the creation of Donald Trump an American failure deployed as a Russian weapon But this threat presents an opportunity to better understand the pillars of our freedoms and face the choices that will determine the future equality or oligarchy individualism or totalitarianism truth or lies A brilliant and disturbing analysis which should be read by anyone wishing to understand the political crisis currently engulfing the world Yuval Noah Harari bestselling author of *Sapiens*

**Sustainable Energy Resources and Economics in Iceland and Greenland** Helga Kristjánsdóttir, 2015-05-06 This book provides fascinating examples of the ways renewable and sustainable energy can support economic growth which will be illuminating for academic researchers and students as well as those interested in green investment opportunities The distinctive glacial volcanic and oceanic environments of Iceland and Greenland supply abundant renewable energy resources in the form of hydropower and geothermal energy As one of the few nations in the world with 100% renewable electricity production Iceland is a compelling case study of a sustainable energy driven economy Consideration of Greenland provides an interesting contrast as its enormous potential for hydropower scale up has only been minimally harnessed The variable and fixed cost factors governing further expansion and export of the regions sustainable power via sub sea cable are detailed

*Atlas of Religion in China: Social and Geographical Contexts* Fenggang Yang, 2018-09-04 The speed and the scale with which traditional religions in China have been revived and new spiritual movements have emerged in recent decades make it difficult for scholars to stay up to date on the religious transformations within Chinese society This unique atlas presents a bird s eye view of the religious landscape in China today In more than 150 full color maps and six different case studies it maps the officially registered venues of China s major religions Buddhism Christianity Protestant and Catholic Daoism and Islam at the national provincial and county levels The atlas also outlines the contours of Confucianism folk religion and the Mao cult Further it describes the main organizations beliefs and rituals of China s main religions as well as the social and demographic characteristics of their respective believers Putting multiple religions side by side in their contexts this atlas deploys the latest qualitative quantitative and spatial data acquired from censuses surveys and fieldwork to offer a definitive overview of religion in contemporary China An essential resource for all scholars and students of religion and society in China

*Push Back* Judith Large, 2016-12-15 In 2009 after decades of conflict the Sri Lankan government proclaimed the decisive defeat of the Liberation Tamil Tigers of Elam Subsequently the state proved resistant to attempts by the UN and other international bodies to promote post war reconciliation or reform In this incisive new work Judith Large investigates the ways in which the Rajapaksa government was able to subvert international diplomatic efforts as well as exploring the wider context of rising Sinhalese nationalism the attendant growth of discrimination against minorities and efforts by both the diaspora and citizens within Sri Lanka to work towards a positive peace *Push Back* is vital reading not only for those interested in Sri Lanka but also for those concerned about the wider implications of the conflict for human rights peace making and geopolitics

*Geography Education Research in the UK:*

*Retrospect and Prospect* Graham Butt, 2019-08-22 This book provides a unique assessment of the development of research in geography education and its future prospects offering a challenging critique of subject based education research with particular reference to geography education across a range of different jurisdictions It covers a range of topics including the changing role of research in geography education the relationship between education research and professional practice with special reference to geography education research the place of academic subject knowledge in geography education research critiques of the functions of research in geography education and the key issues for education policy and policymakers concerning educational research at national and international levels Importantly in a period marked by radical change for education research and researchers the book offers a timely appraisal of possible ways forward for geography education research Addressing the needs of academics research students policymakers and education practitioners who undertake use or shape the future of research in geography education it comprehensively explores the forces that have driven the development of geography education research and pedagogy Further by positioning its analysis in the context of education policy debates in the UK and further afield it assesses the role and function of research in education and offers an outlook on its future This book is essential reading for all those who wish to understand the sporadic and increasingly uncertain development of subject based research in education
