Department of Education, 2013 *Local Officials and the Struggle to Transform Cities* Claire Bénit-Gbaffou , 2024-02-27 Why are even progressive local authorities with the will to improve seldom able to change cities Why does it seem almost impossible to redress spatial inequalities deliver and maintain basic services elevate impoverished areas and protect the marginalised communities Why do municipalities in the Global South refuse to work with prevailing social informalities and resort instead to interventions that are known to displace and

aggravate the very issues they aim to address Local Officials and the Struggle to Transform Cities analyses these challenges in South African cities where the brief post apartheid moment opened a window for progressive city government and made research into state practices both possible and necessary In debate with other progressive moments in large cities in Brazil the USA and India the book interrogates City officials practices It considers the instruments they invent and negotiate to implement urban policies the agency they develop and the constraints they navigate in governing unequal cities This focus on actual officials practices is captured through first hand experience state ethnographies and engaged research These reveal day to day practice that question generalised explanations of state failure in complex urban societies as essential malevolence contextual weakness corruption and inefficiency It is hoped that opening the black box of the workings of state opens paths for the construction of progressive policies in contemporary cities

Mud to bricks: A review of school infrastructure spending and delivery Carmen Abdoll, Conrad Barberton, 2014-07-04 The Centre for Child Law commissioned this study by Cornerstone Economic Research to track school infrastructure spending and delivery The report written by Carmen Abdoll and Conrad Barberton makes the concerning finding that the national Department of Basic Education has woefully underspent the School Infrastructure Backlog grant for two years running In 2011 2012 spending was a little over 10 per cent and only at 23 per cent in 2012 2013 at the end of the third quarter The ASIDI target for the number of schools to be built in 2011 2012 and 2012 2013 was 49 However only 10 had been completed by the end of the first year They predict that if the DBE continues at the same delivery rate a realistic timeframe for the eradication of schools with inappropriate structures is probably 2023 24 They make recommendations which if followed could shorten the delay significantly This study shows the importance of monitoring and evaluating progress against court orders and out of court settlements to ensure that the right to a basic education is made real

Enemy of the People Adriaan Basson, Pieter du Toit, 2017-11-07 *Enemy of the People* is the first definitive account of Zuma's catastrophic misrule offering eyewitness descriptions and cogent analysis of how South Africa was brought to its knees and how a people fought back When Jacob Zuma took over the leadership of the ANC one muggy Polokwane evening in December 2007 he inherited a country where GDP was growing by more than 6% per annum a party enjoying the support of two thirds of the electorate and a unified tripartite alliance Today South Africa is caught in the grip of a patronage network the economy is floundering and the ANC is staring down the barrel of a defeat at the 2019 general elections How did we get here Zuma first brought to heel his party Africa's oldest and most revered liberation movement subduing and isolating dissidents associated with his predecessor Thabo Mbeki Then saw the emergence of the tenderpreneur and those attempting to capture the state as well as a network of family friends and business associates that has become so deeply embedded that it has in effect replaced many parts of government Zuma opened up the state to industrial scale levels of corruption causing irreparable damage to state enterprises institutions of democracy and the ANC itself But it hasn't all gone Zuma's way Former allies have peeled away A new era of

activism has arisen and outspoken civil servants have stepped forward to join a cross section of civil society and a robust media As a divided ANC square off for the elective conference in December where there is everything to gain or to lose award winning journalists Adriaan Basson and Pieter du Toit offer a brilliant and up to date account of the Zuma era
