

Troubleshooting Guide

	PROBLEM	CAUSE	REMEDY
1	Mat or tile not firmly attached.	Adhesive bond not yet activated.	Using grout float, press Mat/tiles FIRMLY in place for 5 seconds.
2	Mat does not uniformly adhere to wall.	Wall not fully clean and/or dry.	Pry up adhered areas using putty knife. Gently pull Mat back while applying low heat from a hair dryer, if necessary.
3	Tile cut on wet saw does not adhere to Mat.	Tile has absorbed moisture during the cutting process.	Dry back of tile with hair dryer or place tiles in an oven at the lowest setting to evaporate moisture. Attempt to reapply. If not successful, see #4 below.
4	Tile which has been repositioned several times will not adhere to Mat.	Adhesive layer has been compromised.	Apply Mat directly to the back of the tile and trim to fit. Remove release liner and apply to existing Mat on wall. Mat is only 1/32" thick and second layer will not be noticeable.
5	Mat applied flat to wall appears to have developed wrinkles.	High humidity sometimes causes the disposable release liner to wrinkle.	The wrinkled release liner does not cause Mat to wrinkle and will not affect Mat's performance. Continue with installation instructions.
6	Cannot smooth out air bubbles under Mat.	Air was trapped behind the Mat during installation.	Use a utility knife to cut a slit in the center of the bubble. Use your hands or grout float to push air toward the slit from the edges of the bubble. If waterproofing is desired, cover slit with Seam Tape.
7	Want to remove Mat from wall after it has been pressed firmly in place.	n/a	Mat is intended to provide a permanent bond. However, if you are able to pry up a corner of the Mat using putty knife, gently pull Mat back while applying low heat from a hair dryer. Removal will likely cause damage to wall.
8	Want to remove tile from Mat after firmly pressed in place.	n/a	Mat is intended to provide a permanent bond. However, if you are able to pry up a corner of the Tile using putty knife, gently pull Tile back while applying low heat from a hair dryer. Removal will likely cause damage to Mat. To replace tile, apply Mat directly to the back of the tile, remove release liner and apply tile to existing Mat on wall. Mat is only 1/32" thick and second layer will not be noticeable.
9	Mosaic tiles which have detached from mesh backing won't adhere.	Mosaic mesh glue failure.	Apply Mat directly to the back of the tile and trim to fit. Remove release liner and apply tile directly to mesh on wall. Mat is only 1/32" thick and second layer will not be noticeable.
10	Tiny tiles won't adhere.	Insufficient surface area.	Use construction adhesive or superglue applied to back of tile.
