Math Scripts Carol Armstrong Hardee,2022-01-12 Math Scripts Algebra 1 is a supplemental resource to any Algebra 1 course It is designed to allow students to practice solving equations and inequalities studied in Algebra 1 using a script The script provides word for word steps using the rules of equations inequalities and order of operations Students can partner with other students and speak the parts in the script that describes step by step how to solve what is given They have a great opportunity to write what they are saying which helps them to process how what they are saying is related to how to denote the solution process symbolically In other words they are not only able to say the correct process but they see how it should be written building their literacy There are different levels for each topic so students can begin at an entry level and continue with more complex scripts Speaking the language of math by performing math scripts will help your student become more fluent in math
