[Aesth-ethics](#) Dror Pimentel, 2025-02-07 The question of hospitality is the most pressing question in contemporary thought How can we host that which is utterly Other that which resists all conceptualization and thus disrupts the proper course of thought In the current book the discussion of hospitality is given a new conceptualization and extended to the field of aesthetics the event of hospitality does not occur in the face to face encounter with the other person as Emmanuel Levinas conceived of it but rather in the encounter with the work of art itself Writing about the event of hospitality as it is eventuated in art involves subverting the traditional precedence of theory over practice This subversion is also evident in the indifference to traditional distinctions such as those between poetry and visual art modern art and classical art international art and local art Moreover most of the artworks considered throughout are hybrid in character they are suspended in the space between the visual and the verbal whether they involve the verbal representation of a visual object as in Rilke s poem Archaic Torso of Apollo or a visual representation of a verbal object as in Anselm Kiefer s work Your Golden Hair Margarete The consideration of these and other works come together to give rise to a novel and original discourse on art that is termed Aesth ethics and which is presented for the first time in this volume
