Human Resource Management Ronald R. Sims, 2007-01-01 The contributors in this book identify and clearly discuss contemporary and critical issues challenges and opportunities in HRM The book attempts to achieve the delicate balance between basic HRM functions and the new world of HRM Moreover in a dynamic field like HRM a complete look at contemporary HRM issues challenges and opportunities is a must for today's and tomorrow's students and future managers and leaders After all it is important for any book to undertake a current state of the field while also bridging the gap of traditional HRM activities i.e. issues challenges and opportunities and the possible future state of the HRM field An organizing principle for this book is the need to for an integrated HRM system comprised of multiple activities designed to influence organizational and employee behaviors The book's contributors include some basic theories and models that simultaneously consider how HRM activities like recruitment selection reward practices and development activities among others are being impacted by contemporary issues challenges and opportunities for the field of HRM particularly HRM functions and professional as they are increasingly expected to play a role in enabling organizational managers and other employees to achieve desired organizational results Thus the essence of the book is that the collective chapters reflect both a functional orientation built on theory and models but also provide insights into how to translate theory into practice via the establishment of the increasingly critical role HRM procedures practices and processes play in accomplishing the goals and objectives in contemporary organizations

Marketing Democracy Romain Laufer, Catherine Paradeise, 2011-12-31 This book examines mass marketing techniques in a political rather than economic context The author's thesis remains persuasive democratic politics precisely because it requires mass support for its legitimation increases the need for public opinion to be channelized and focused This is precisely the task of marketing in the political process Increasingly advanced societies are involved in symbolic rather than direct forms of struggle As a result management of ideas becomes crucial to both political survival and economic expansion Romain Laufer and Catherine Paradeise argue that public opinion and media formation is built into the fabric of Western political culture dating from the Sophists in ancient Greece through Machiavelli in the aristocratic baronies of pre-capitalist Europe With the rise of the bureaucratic administrative state in the West the need for persuasive public opinion analysis became part of the fabric of the advanced Western democratic and capitalist nations The volume benefits from authors trained and familiar with the traditions of both the United States and Europe They are able to consider contrasts in marketing styles as well as continuities of contents among advanced nation states No simple how to manual this bracingly different volume discusses its subject with an easy command of the philosophical and cultural literatures as well as the major classics of economics sociology and political science
