

Chapter 24: Accounting for non-profit making organisations

- 24.1** (a) A receipts and payments account is a summary of the cash book that shows the sources and uses of money for a non-profit making organisation. An income and expenditure account is the same as a business's profit and loss account. However, any surplus is not classed as profit but is called 'surplus of income over expenditure' any loss incurred is stated as 'excess of expenditure over income'.
- (b) Capital - is the total resources invested in a business by the owner(s) and is represented by assets - liabilities. Accumulated fund - this is in effect the same as the capital account in that it is the difference between an organisation's assets and liabilities.
- (c) Profit is the difference between the selling price of goods and their cost less any expenses incurred in running the business. A surplus of income over expenditure is the equivalent of a business's profit for a non-profit making organisation.
