Hollywood or History? Lisa K. Pennington, Donna Fortune, Mary E. Tackett, Paige Horst, Meghan A. Kessler, 2024-09-01 Teaching and learning through Hollywood or commercial film and television productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century. However, purposeful and effective instruction through film is not problem free and there are many challenges that accompany classroom applications of Hollywood motion pictures. In response to the problems and possibilities associated with teaching through film, we are developing a collection of practical classroom ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms. We believe that film can serve as a powerful tool in the social studies classroom and where appropriately utilized, foster critical thinking and civic mindedness. The NCSS College Career and Civic Life C3 framework represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking, reading, and writing. We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country, the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute. Our hope is that this edited book might play a small role in the larger project of supporting practitioners, specifically K-6 teachers of social studies content, by offering a collection of classroom ready tools based on the Hollywood or History strategy and designed to foster inquiry through the careful use of selected motion pictures and television productions. Pragmatic Reason Robert Talisse, Daniel Reyes Cárdenas, Daniel Herbert, 2023-03-23 Christopher Hookway has been influential in

promoting engagement with pragmatist and naturalist perspectives from classical and contemporary American philosophy. This book reflects on Hookway's work on the American philosophical tradition and its significance for contemporary discussions of the understanding of mind, meaning, knowledge, and value. Hookway's original and extensive studies of Charles S. Peirce have made him among the most admired and frequently referenced of Peirce's interpreters. His work on classical American pragmatism has explored the philosophies of William James, John Dewey, and Josiah Royce and examined the influence of pragmatist ideas outside of the United States. Additionally, Hookway has participated in a number of celebrated exchanges with some of the most high-profile figures of twentieth and twenty-first century philosophy, including Karl Otto Apel, Philip Pettit, Hilary Putnam, and W. V. O. Quine, through which his treatments of a large range of topics in epistemology and the philosophies of mind and language have been developed and promoted. The chapters in this book, which include contributions from several of Hookway's former students and colleagues, include studies of Hookway's engagement with the works of Peirce, James, and Dewey; his contributions to virtue epistemology; and his discussions of hope and pragmatist metaphysics. *Pragmatic Reason* will be of interest to researchers and advanced students working on American philosophy, the history of analytic philosophy, and epistemology.
