

Answering Questions in Full Sentences

Always use the question in your answer. For Example:

- Did Julie's brother take her to see a movie last night?
- Yes, Julie's brother took her to see a movie last night.

Never begin a sentence with "because".

- Because Julie was bored at home. X This is incorrect, it makes the sentence incomplete. Julie went to see a movie with her brother because she was bored at home. This is a complete/full sentence.

Exercise A - Answer the following questions in full answer sentences:

1. Why did he stop at the pedestrian crossing?
2. Why did his mom drag him out of bed?
3. When did the dolphin glance at the little girl?
4. How was the young man driving his car?
5. Where is the backpacker hostel located?
6. When did Jackie go to the shopping centre?
7. Why did the children laugh at the clown?
8. Where did the girl go for a brisk walk?
9. Why did the chair break when he sat on it?
10. Who did the policeman talk to last night?
11. How many bystanders saw the accident?
12. Why did the little boy scream in his dream?
13. Who sent the postcard to my mother?
14. When did the drunk woman crash her car?
15. How did the students get to the carnival?
16. Why did the two girls eat their food quickly?
17. Who bought that sports car for you?
18. How many people were in the sports car?
19. When will we go to see the penguins?
20. Where will the barbeque be held today?
21. What time will you go to the barbeque?
22. Why did the students listen to the teacher?
23. How many countries have you visited?
24. Have you ever eaten frog legs before?
25. Do you like to play board games at home?

Exercise B - Join these "because" sentences:

- | | |
|-----------------------------|------------------------------------|
| 1. We had sport in the hall | a. because the sea was too rough |
| 2. I had lunch early | b. because I didn't do my homework |
| 3. She was late to school | c. because had a headache |
| 4. I slept in late | d. because she missed the bus |

FLYING START : - Jilid 3A , *Phonics Exposed* Richard J. Meyer,2001-11-01 What are the implications of teaching phonics via a systematic direct intense program that mandates all children to experience the same scripted lesson at the same time This book addresses the question through an in depth play by play description of a phonics lesson as it occurred in a real classroom followed by chapters that look at it from different angles by zooming in on one facet to analyze it closely Reading What is reading What definition of reading is presented implicitly in the phonics lesson What do competing definitions from the reading research literature say about how important phonics rules are and how they are used by readers and teachers of reading Teacher knowledge What is the role and the place of teacher knowledge as it relates to the lesson What are the skills a teacher has and needs to use in a lesson that is completely scripted The children What are their roles and positions during the lesson What are they learning Curriculum Where does the phonics curriculum come from Curriculum in general Who does it serve and how What is its purpose Culture What is the role of culture in the lesson How do cultural differences and culturally relevant pedagogy relate to the scripted phonics lesson Politics and ideology Why and how is everything that happens in schools political How are scripted lessons and resistance to them forms of political action Teacher professionalism How can teachers act in order to maintain academic freedom expressed as professional decision making in classrooms The author of this book is not neutral He presents the difficulties a teacher encounters in implementing mandated systematic direct intense phonics instruction and children who are confused and frustrated by it But at the same time he constantly presents hope in the form of smart teachers curious children and possibilities for taking action that can lead to change His direct accessible writing style stimulates thought and discussion ICT Exercises for Key Stage 3 Mathematics Maureen Hayes,2002 This text provides an innovative range of ICT activities for KS3 maths allowing students of all abilities to learn more maths through this exciting medium whilst developing their ICT skills The interactive activities and maths resources on the CD ROM can be networked for whole class teaching or individual student use Extensive teacher notes introduce the activities Learning outcomes can be assessed from integral student assessment forms that can be saved as Word files on your school network or individual computer Easy to set up and easy to use Cut Paste and Surf is a

straightforward solution to integrating ICT into KS3 Maths Our Language Gordon Augustus Southworth, Farley Brewer Goddard, 1887 *Puzzles in Logic, Languages and Computation* Dragomir Radev, 2013-02-11 This is the second volume of a unique collection that brings together the best English language problems created for students competing in the Computational Linguistics Olympiad. These problems are representative of the diverse areas presented in the competition and designed with three principles in mind: To challenge the student analytically without requiring any explicit knowledge or experience in linguistics or computer science; To expose the student to the different kinds of reasoning required when encountering a new phenomenon in a language both as a theoretical topic and as an applied problem; To foster the natural curiosity students have about the workings of their own language as well as to introduce them to the beauty and structure of other languages. To learn about the models and techniques used by computers to understand human language. Aside from being a fun intellectual challenge, the Olympiad mimics the skills used by researchers and scholars in the field of computational linguistics. In an increasingly global economy where businesses operate across borders and languages, having a strong pool of computational linguists is a competitive advantage and an important component to both security and growth in the 21st century. This collection of problems is a wonderful general introduction to the field of linguistics through the analytic problem-solving technique. A fantastic collection of problems for anyone who is curious about how human language works. These books take serious scientific questions and present them in a fun, accessible way. Readers exercise their logical thinking capabilities while learning about a wide range of human languages, linguistic phenomena, and computational models. Kevin Knight, USC Information Sciences Institute What Do New Teachers Need to Know? Peter Foster, 2023-04-19 What knowledge will make you most effective as a teacher? New teachers are often bombarded with information about the concepts they should understand and the topics they should master. This indispensable book will help you navigate the research on curriculum, cognitive science, student data, and more, providing clarity and key takeaways for those looking to grow their teaching expertise. *What Do New Teachers Need to Know?* explores the fundamentals of teacher expertise and draws upon contemporary research to offer the knowledge that will be most useful: the methods to retain that knowledge and the ways expert teachers use it to solve problems. Written by an educator with extensive experience and understanding, each chapter answers a key question about teacher knowledge, including: Does anyone agree on what makes great teaching? How should I use evidence in my planning? Why isn't subject knowledge enough? What should I know about my students? How do experts make and break habits? How can teachers think creatively whilst automating good habits? What do we need to know about the curriculum? How should Cognitive Load Theory affect our pedagogical decisions? Packed with case studies and interviews with new and training teachers, alongside key takeaways for the classroom, this book is essential reading for early career teachers, those undertaking initial teacher training, and current teachers looking to develop their expertise.
