as the international human rights standards enumerated in the ICCPR In order to better educate and train judges this book contains introductory chapters that examine the severe punishments currently available to Chinese judges from an international human rights perspective To illustrate how Chinese justice currently falls short of international norms this paper also examines several cases that are considered to be indicative of China's progress towards greater respect for human rights and the rule of law These cases demonstrate that China still has a long way to go to achieve its goals at least before abolishing the death penalty forced labor and torture
