

Abstract: Theoretical Foundations of the HAW Model

The HAW Model is a theoretical framework for understanding the relationship between the individual and the organization. It is based on the assumption that the individual is a social being who is influenced by the organization and vice versa. The model is divided into three main components: the individual, the organization, and the environment. The individual is represented by a circle, the organization by a square, and the environment by a triangle. The relationships between these components are represented by arrows.
