Break the Stigma: Autism Nichole E Scheerer ,April Hargreaves ,Catalina Sau Man Ng ,Matthew Daniel Lerner, 2024-12-17 While awareness of neurodiversity and specific forms of neurodivergence such as autism has increased over the last few years autism stigma and prejudice against autistic people remains a critical issue that warrants further attention and investigation The experience of stigma and prejudice such as discriminatory actions and attitudes towards autistic individuals on both a personal and public level can have many negative impacts across one s lifetime These experiences can lead people on the autism spectrum and their families to avoid seeking help which can delay diagnosis and

access to supportive services of not only autism itself but also co occurring physical and psychological health needs

Prejudiced beliefs against autistic people may lead to many forms of discrimination including but not limited to medical education and employment discrimination These attitudes can be built into society at a systemic level and influence policies that govern access to supports and our communities Additionally autism stigma and prejudice against autistic people such as stereotypical portrayals of autistic people in media and the language we use to describe autistic people can be invalidating to a person s autistic identity and to autistic culture Further the impacts of stigma and prejudice can be internalized by autistic individuals which may not only have poor effects on their wellbeing but also increase the want and or need to mask or camouflage to pass as non autistic Masking or camouflaging can reduce a person s sense of belonging self esteem sense of self worth and close relationships all of which are associated with poor outcomes It can also lead to avoidance of opportunities such as connection with other autistic individuals that could increase quality of life This Research Topic aims to showcase evidence on why the stigma surrounding autism and the prejudice against autistic people are so detrimental It hopes to provide insights into research and interventions on how stigma and prejudice can be tackled as well as awareness understanding and acceptance raised in the hope that the research presented will translate to best practice applications in clinical public health policy and community settings We invite researchers to submit a range of articles including but not limited to original research articles reviews meta analyses opinions perspectives and case reports to provide new evidence on the following Harmful impacts of stigma and prejudice on autistic people Interventions on reducing stigma surrounding and prejudice against autistic people Health promotion in autism i e approaches that increase the mental and physical well being of autistic people Interventions targeted at increasing understanding of autism and neurodiversity as well as increasing acceptance and advocacy of as well as allyship with autistic people Examining intersectionality in autism stigma and or prejudice towards autistic people of diverse backgrounds

combat potential terrorism sabotage theft and disruption which could bring any business to its knees has swept the nation. This has opened up a huge opportunity for private investigators and security professionals as consultants. Many retiring law enforcement and security management professionals look to enter the private security consulting market. Security consulting often involves conducting in-depth security surveys so businesses will know exactly where security holes are present and where they need improvement to limit their exposure to various threats. The fourth edition of *Security Consulting* introduces security and law enforcement professionals to the career and business of security consulting. It provides new and potential consultants with the practical guidelines needed to start up and maintain a successful independent practice. Updated and expanded information is included on marketing fees and expenses, forensic consulting, the use of computers, and the need for professional growth. Useful sample forms have been updated in addition to new promotion opportunities and keys to conducting research on the Web. The only book of its kind dedicated to beginning a security consulting practice from the ground up. Proven practical methods to establish and run a security consulting business. New chapters dedicated to advice for new consultants, information security consulting, and utilizing the power of the Internet. The most up-to-date best practices from the IAPSC.
