Personal Electric Vehicles - IEVs Dale Stubbart, I call Personal Electric Vehicles IEVs That's because people want their Electric Vehicle to be more personal They want it to resonate with who they are I Can you blame them Some call these vehicles micromobility An IEV is like your alter ego For some people this would be a Tesla or a Nissan Leaf But IEVs are more personal That means they're typically smaller Often they're smaller or not much bigger than the driver rider Ask yourself these questions If I put wheels on my feet and added some batteries for electricity what would I transform into How fast would I be able to go And how much fun could I have getting there That's the IEV for you What is a Personal Electric Vehicle IEV How am I defining them 1 It's Fully Electric I won't be including any Hybrid Vehicles which use fossil fuels 2 It's Personal This vehicle not only gets you around it is the definition of who you are 3 It's Usually for One Person One part of whether a vehicle is personal or not is its capacity While personal seems to imply one person I'm going to include vehicles which hold two You might normally be the only person in or on your vehicle However every so often you might want to or need to take someone else along Perhaps you never go anywhere without your BFF So what kind of vehicles are we talking about here Electric Skateboards e bikes Micro cars and many more I cover IEVs that travel on the ground on the street and off road I cover those that go in and under the water and those which fly I look at vehicles which are used on the farm and in

the warehouse The best part is that I help you create an evaluation check list for when you buy your IEV the personal electric vehicle that is you **Farmers and Consumers Market Bulletin** ,2011
