

2158 VERTEX[®] Floor Scales

Mettler Toledo[®] 2158 VERTEX is a fully electronic, highly accurate low profile floor scale designed for tough industrial environments, and can either be installed on top of the floor or in a pit. The VERTEX also contains a patented rocker pin suspension, which eliminates the need for field adjustment of suspension assemblies, bumpers, or overload stops. Optional ramps can make the scale accessible from all four sides and its low profile design minimizes operator effort when loading or unloading the scale platform. The 2158 is available in two different material types: a rugged epoxy painted mild steel or a 304 stainless steel version.
