movement believed in evolutionary progress whereas others hoped to be the agents of a sudden millennial transformation. They differed as well in their views as to whether the fundamental social unit was the individual, the family, the phalanstery, or the community. The story of the three communities was inevitably also the story of particular individuals, and Francis highlights the lives and ideas of such leaders as George Ripley, W. H. Channing, Bronson Alcott, Charles Lane, and Theodore Parker. The consistent underlying beliefs of the New England Transcendentalists have exerted a powerful influence on American intellectual and cultural history ever since.
