

Anatomy and Physiology Laboratory Safety Guidelines*

1. Upon entering the laboratory, locate exits, fire extinguisher, fire blanket, chemical shower, eyewash station, first aid kit, containers for broken glass, and materials for cleaning up spills.
2. Do not eat, drink, smoke, handle contact lenses, store food, or apply cosmetics or lip balm in the laboratory. Restrain long hair, loose clothing, and dangling jewelry.
3. Students who are pregnant, are taking immunosuppressive drugs, or have any other medical conditions (e.g., diabetes, immunological defect) that might necessitate special precautions in the laboratory must inform the instructor immediately.
4. Wearing contact lenses in the laboratory is inadvisable because they do not provide eye protection and may trap material on the surface of the eye. Soft contact lenses may absorb volatile chemicals. If possible, wear regular eyeglasses instead.
5. Use safety glasses in all experiments involving liquids, aerosols, vapors, and gases.
6. Decontaminate work surfaces at the beginning and end of every lab period, using a commercially prepared disinfectant or 10% bleach solution. After labs involving dissection of preserved material, use hot soapy water or disinfectant.
7. Keep all liquids away from the edge of the lab bench to avoid spills. Clean up spills of viable materials using disinfectant or 10% bleach solution.
8. Properly label glassware and slides.
9. Use mechanical pipetting devices; mouth pipetting is prohibited.
10. Wear disposable gloves when handling blood and other body fluids, mucous membranes, and nonintact skin, and when touching items or surfaces soiled with blood or other body fluids. Change gloves between procedures. Wash hands immediately after removing gloves. (**Note:** Cover open cuts or scrapes with a sterile bandage before donning gloves.)
11. Place glassware and plasticware contaminated by blood and other body fluids in a disposable autoclave bag for decontamination by autoclaving, or place them directly into a 10% bleach solution before reuse or disposal. Place disposable materials such as gloves, mouthpieces, swabs, and toothpicks that have come into contact with body fluids into a disposable autoclave bag, and decontaminate before disposal.
12. To help prevent contamination by needlestick injuries, use only disposable needles and lancets. Do not bend the needles and lancets. Needles and lancets should be placed promptly in a labeled, puncture-resistant, leakproof container and decontaminated, preferably by autoclaving.
13. Do not leave heat sources unattended.
14. Report all spills or accidents, no matter how minor, to the instructor.
15. Never work alone in the laboratory.
16. Remove protective clothing before leaving the laboratory.

Human Anatomy and Physiology Laboratory Manual Elaine Nicpon Marieb, 1985 *Current Catalog* National Library of Medicine (U.S.), 1985 First multi-year cumulation covers six years 1965-70 **Human Anatomy & Physiology** Elaine Nicpon Marieb, Katja Hoehn, 2010 With the Eighth Edition of the top-selling Human Anatomy Physiology with MyA P text, trusted authors Elaine N. Marieb and Katja Hoehn have produced the most accessible, comprehensive, up-to-date and visually stunning anatomy physiology textbook on the market. Marieb draws on her career as an A P professor and her experience as a part-time nursing student while Hoehn relies on her medical education and classroom experience to explain concepts and processes in a meaningful and memorable way. The most significant revision to date, the Eighth Edition makes it easier for you to learn key concepts in A P. The new edition features a whole new art program that is not only more visually dynamic and vibrant than in previous editions but is also much more pedagogically effective for today's students, including new Focus figures which guide you through the toughest concepts in A P. The text has been edited to make it easier than ever to study from and navigate with integrated objectives, new concept check questions and a new design program. Two Sides To Every Story Wanda F. Kenty, 2022-09-27 In the beginning God created the heavens and the earth because there was a war in heaven. At the end of that war, long before this new Adamic beginning, Almighty Father God gave Archangel Michael charge of leading the battle in casting Satan, the enemy of God, out of heaven. In the archangel's victory, Satan was cast down to this God-created earth. In God's full knowledge of the pure evil that Satan possessed, He created man, the first one, Adam, in His own image. Each one of us that proceeded after that creation up to this very day are created as a person or piece of the Almighty God, endowed with the inheritance of who and what He is. God

created man to be soldiers in His army The purpose for our creation is to battle the evils that Satan would use to try to destroy us and this earth in his way of attacking God In God s creation of man we are keepers of His footstool because Almighty God is on His throne in heaven Satan having had the favor of God before he grew insanely jealous of Him knew that not to be a good idea So the very first man God created Satan attacked and was successful Satan knew that if he could insert his seed into the very first of God s creation he would have a good chance of destroying all human beings that man would create Psalm 139 14 says I praise you for I am fearfully and wonderfully made In my opinion there has never been a statement that has been proven more true With Satan hiding behind the scene he anxiously awaits man to explore his God given creativity until man knows no limit which ends us where we are today Limitless possibilities Constructive and destructive Everything man creates is accompanied by an operating manual In God s proof of all His creation He accompanied us with one also It s called the Holy Bible which is not the story that we are able or want to create simply because we can but it is His story that we are to follow Like any other manual of instruction created by man that is unused or not read you will undoubtedly end up with a lot of extra screws and pieces that do not fit Give the Lord the mangled pieces of the life you have tried to put together It s called surrender It s the only way to true health wealth and spiritual freedom
