

Film study : Gattaca

A film by *Andrew Niccol* ; starring *Ethan Hawke, Uma Thurman, Jude Law* in the main parts.

Vincent's story :

- How was he conceived? (naturally /artificially?)
- When he was born, what did doctors predict?
- His childhood : describe his relationship with his brother : how can you explain it?
- What was his dream?
- What was his first job ?
- How did he manage to enter Gattaca? Describe all the things he had to do.
- Who is Jerome Morrow?
- The society in which Vincent lives is divided into two categories : what are these two categories? Pick out all the words referring to both categories during the film.

Vincent in Gattaca

- Where is he scheduled to go? When?
- What happens in the space academy?
- What clue do the police find?
- Describe Vincent's relationship with Irene
- Eventually, what happens to Vincent? To Jerome?

Here is an introduction to the film . Fill in the blanks with the appropriate word :

As a-----, Vincent discovers that he is -----from his younger brother, Anton, a Petri dish -----who possesses the perfect -----for success. Where Anton is -----and tall and has perfect eyesight, Vincent is -----and sickly and wears -----that give away his genetic inferiority. When Anton earns his parents' constant praise, encouragement and-----, Vincent is coddled, -----and kept at----- . But there is no gene for the human ----- and Vincent finds that this is the key to changing his-----.

Lüthy, Annemiek Nelis, Carla Sieburgh, J.P.M. Jansen, Monika S. Schmid, 2013-02-12 The volume is collection of articles treating the topic of human improvement enhancement from a variety of perspectives philosophical literary medical genetic sociological legal etc The chapters in this volume treat not only those aspects that most immediately come to mind when one thinks of human enhancement such as genetic engineering cloning artificial implants and artificial intelligence etc Somewhat less obvious aspects include evolutionary perspectives in connection with the prolongation of the human lifespan plastic surgery since its beginnings and questions such as whether the distinction between natural and artificial can really be drawn at all and how it has been conceived across the ages or what the legal implications are of recent developments and techniques Many papers make links to the representation of these developments in popular culture from Jules Verne through Aldous Huxley to the movie Gattaca address the hopes and fears that come with them as well as the question how realistic these are While all chapters are written by scientists at the international top of their respective fields all are accessible to a non specialist audience and eminently readable We believe that they represent a state of the art overview of questions that are of interest to a large audience The book thus targets a non specialist audience with an interest in philosophical sociological scientific and legal issues involved in both traditional and recent matters concerning the desire of mankind to improve itself the human body the human mind and the human condition It is unique in that it brings together all these aspects within a coherent and cohesive collection **Genetic Information** Alison K. Thompson, Ruth F. Chadwick, 2007-07-23 It is difficult to think of an example of an advancement in the biological sciences that has had an impact on society similar to that of the new genetics Recent developments in biotechnology have occasioned much discussion among academics professionals and lay people alike In particular many questions and concerns have arisen over the acquisition access and control of genetic information There are several reasons why the new genetics has commanded such widespread attention and why it is now the subject of considerable debate Special reference is given in this volume to the implications of genetic information for five different subject areas eugenics the insurance industry the commercialisation of genetic testing strategies for raising public awareness and the value of theoretical ethical and sociological frameworks in the debate This diverse collection of papers attempts to address and critically discuss issues surrounding the control of and access to genetic information from ethical medical legal and theoretical points of view The first and shortest section of the book attempts to address concerns over the eugenic potential of new biotechnologies It also provides a historical context for

the debate for controversy over the subject of eugenics predates the current debate over genetic information by a considerable length of time Indeed by the time the first patent was issued for Chakrabarty's strain of oil eating bacteria in the early 1970s the term eugenics had already acquired strong pejorative connotations

Difference and Identity Jonathan M. Metzl, Suzanne Poirier, 2005-07-15 In an increasingly diverse society it is essential that medicine be aware of matters of difference Medical humanities programs promote awareness of the social aspects of medicine and the Association of American Medical Colleges has recently instituted cultural competencies for clinical interaction for the training of medical students Yet these efforts to impart understanding of the cross cultural aspects of medicine are still hindered by a significant limitation within a medical system whose currency is diagnosis difference is primarily defined through disease This special issue of Literature and Medicine focuses on difference and identity in the context of disease and disability The articles collected here explore the complex ways in which notions of disease disability and difference are related and in which bodies marked by gender race disability sexuality and ethnic identities experience disease in specific ways The essays take a humanities based approach to the subject and emphasize an awareness and sensitivity to difference through forms of symbolic representation such as metaphor and narrative This volume provides a heuristic lens through which relationships between individual expressions of identity and communal experiences of

difference can be considered Each article speaks to the process whereby individual stories and strategies shape and are in turn shaped by the institutions they seek to transform Literature and Medicine is devoted to exploring interfaces between literary and medical knowledge and understanding The journal showcases the creative and critical work of renowned physician writers leading literary scholars and medical humanists God, Ethics and the Human Genome Mark Bratton,2009 Advances in genetic science and medicine raise questions for us all such as How far should we intervene in natural processes How far should we go to alleviate suffering What constitutes a worthwhile life Exploring these questions and more this book considers theological ethical and legal aspects relating to the human genome **The Gospel According to Science Fiction** Gabriel McKee,2007-01-01 Explores the theological nature of science fiction drawing on examples from television literature and films to explain how science fiction can help people understand not only who they are but who they will become **Living with Cyberspace** John Armitage,Joanne Roberts,2003-02-01 Cyberspace and cyber technology have impacted on every aspect of our lives Western society culture politics and economics are now all intricately bound with cyberspace Living With Cyberspace brings together the leading cyber theorists of North America Britain and Australia to map the present and the future of cyberspace Presenting a guidebook to our new world both the theory and the practice the book covers subjects as diverse as androids biotech electronic commerce the acceleration of everyday life access to information the alliance between the military and the entertainment industries feminism democratic practice and human consciousness itself Together the essays divided into separately introduced sections on society culture politics and economics present a systematic and state of the art overview of technology and society in the 21st Century Contributors John Armitage Verena Andermatt Conley James Der Derian William H Dutton Phil Graham Tim Jordan Wan Ying Ling David Lyon Ian Miles Joanne Roberts Saskia Sassen Cathryn Vasseleu McKenzie Wark Frank Webster *Alternative Scriptwriting* Ken Dancyger,Jeff Rush,2013 Alternative Scriptwriting 4E is an insightful and inspiring book on screenwriting concerned with challenging you to take creative risks with genre tone character and structure Concerned with exploring alternative approaches beyond the traditional three act structure Alternative Scriptwriting first defines conventional approach suggests alternatives then provides case studies These contemporary examples and case studies demonstrate what works what doesn't and why Because the film industry as well as the public demand greater and greater creativity one must go beyond the traditional three act restorative and predictable plot to test your limits and break new creative ground Rather than teaching writing in a tired formulaic manner this book elevates the subject and provides inspiration to reach new creative heights Alternative Scriptwriting 4E covers The melodrama and the thriller Adaptations from contemporary literature Writing non fictional narratives for the feature documentary An in depth exploration of point of view and perspective as expressive of the film writer's voice Voice oriented genres docudrama the fable and experimental narrative Non linear storytelling the narrative strategies that are necessary to make an open architecture story work Considerations for writing for DV that speak
