Antonetti,James R. Garver,2015-02-20 Most educators are skilled at planning instruction and determining what they will do during the course of a lesson However to truly engage students in worthwhile rigorous cognition a profound shift is necessary a shift in emphasis from teaching to learning Put another way we know that whoever is doing the work is also doing the learning and in most classrooms teachers are working much too hard Authors John V Antonetti and James R Garver are the designers of the Look 2 Learning model of classroom walkthroughs They ve visited more than 17 000 classrooms examining a variety of teaching and learning conditions talking to students examining their work and determining their levels of thinking and engagement From this vast set of data they ve drawn salient lessons that provide valuable insight into how to smooth the transition from simply planning instruction to designing high quality student work The lessons John and Jim have learned from their 17 000 and counting classroom visits can t be wrong They share those lessons in this book along with stories of successful practice and practical tools ready for immediate classroom application The authors also provide opportunities for reflection and closure designed to help you consider or reconsider your current beliefs and practices Throughout you will hear the voices of John and Jim and

the thousands of students they met as they provide a map for shifting the classroom dynamic from teaching to learning

What Works United States. Congress. Senate. Committee on Health, Education, Labor, and Pensions, 1999 *Beginning Interpretative Inquiry* Richard Morehouse, 2012-02-20 *Beginning Interpretive Inquiry* importantly makes the distinction between the use of inquiry rather than interpretive research or interpretive evaluation Richard Morehouse explores how inquiry is a far more inclusive concept that allows for a detailed understanding of both research and evaluation The author draws on his personal experiences and observations that many academics and practitioners in education psychology and many other academic disciplines are successfully engaged in both research and evaluation and that in practice these enterprises share much in common This book provides detailed examples of different projects some that are primarily research oriented others that are primarily evaluation and projects that effectively and seamlessly combine both research and evaluation Having provided a solid philosophical foundation for an understanding of interpretive inquiry the author gives a detailed and accessible step by step approach that explores all stages of the process including How the processes of interpretive inquiry fit together Understanding where inquiry ideas come from How to develop an appropriate inquiry sample Data collection mechanisms Effective data analysis Writing successfully for publication Complete with case studies of a wide variety of interpretive inquiry projects this vital new book is an essential tool for researchers from a wide range of disciplines It will help them plan conduct and evaluate research that successfully blends both qualitative and quantitative approaches

Resources in Education, 1995 **Stop Leading, Start Building!** Robyn R. Jackson, 2021-02-16 You are a school administrator a principal or maybe a district leader You re doing everything right poring over data trying new strategies launching annual initiatives bringing in outside trainers So why do the outcomes you seek still seem so far away The problem isn't you it's that you were trained in school leadership and school leadership just isn't up to the challenge Each year Robyn R Jackson helps thousands of administrators stop wasting time and energy on flawed leadership approaches that succeed only with the right staff students parents budget and boss As they have discovered it's possible to transform your school with the people and resources you already have The secret Stop leading and start building In this book you'll learn to use Jackson's breakthrough Buildership Model to escape the school improvement hamster wheel and finally create the school your students and teachers deserve The work involves a handful of simple shifts in how you approach Purpose Instead of chasing tiny gains or the next new thing every year you'll establish and use an ambitious vision mission and set of core values to galvanize your staff keep everyone focused and create true accountability for achieving your goals People You'll discover new ways to help every teacher grow one level in one domain in one year or less and ultimately develop high levels of both will and skill Pathway Instead of trying to tackle every problem at once you'll identify the biggest obstacle standing in your way right now and figure out exactly how to remove it once and for all Plan You'll learn a new process for solution implementation that is iterative cyclical and capable of powering both short term wins and ongoing transformation year over year When you

stop leading and start building you let go of the idea that you need to work harder to make your school work better You no longer settle for incremental improvement when what you really want is dramatic change and better learning outcomes for all It s time to make the shift from leadership to buildership Get ready to turn your school into a success story
