humankind's predilection with continuous GDP growth. Given this starting point, the world's high income nations must begin the transition to a qualitatively improving steady state economy and low income nations must follow suit at some stage over the next 20-40 years. Unless they do, a well designed emissions protocol will be as useless as the paper it is written on. Adopting an ecological economic approach, this book sets out why we must abandon the goal of continuous growth, how we can do so in a way that improves human well being, what constitutes a safe atmospheric concentration of greenhouse gases, and what type of emissions protocol and emissions trading framework is likely to achieve a desirable climate change outcome. Failure of the world's leaders to achieve these goals will not only put future human well being at risk, it will threaten freedom in the liberal democratic tradition and international peace. **Reconfiguring Racial Capitalism** Mingwei Huang

Huang, 2024-10-18. In *Reconfiguring Racial Capitalism*, Mingwei Huang traces the development of new forms of racial capitalism in the twenty first century. Through fieldwork in one of the China malls that has emerged along Johannesburg's former mining belt, Huang identifies everyday relations of power and difference between Chinese entrepreneurs and African migrant workers in these wholesale shops. These relations, Huang contends, replicate and perpetuate global structures of white supremacy, anti-Blackness, capitalism, and colonialism, even when whiteness is not present. Huang argues that this dynamic reflects the sedimented legacies and continued operation of white supremacy and colonialism, which have been transformed in the shift of capitalism's center of gravity toward China and the Global South. These new forms of racial capitalism and empire layer onto and extend histories of exploitation and racialization in South Africa. Taking a palimpsestic approach, Huang offers tools for understanding this shift and decentering contemporary Western conceptions of race, empire, and racial capitalism in the Chinese Century. *Yearbook of International Organizations*, 1984-12. *Yearbook of International Organizations* 2005/2006, 2005-06. For the *Yearbook of International Organizations*, the most up to date and comprehensive reference to international organizations, the UIA has selected the most important 31,086 organizations from its extensive database of current and previous organizations. *Yearbook* provides profiles of 5,546 intergovernmental and 25,540 international non-governmental organizations active in nearly 300 countries and territories in the world today. Organization descriptions listed in Volume 1 are numbered sequentially to facilitate quick and easy cross referencing from the other *Yearbook* Volumes. Users can refer to Volumes 2 and 3 to locate organizations by region or subject respectively, and comprehensive indexes are included.
