The Economist, 1998 *A Straightforward Guide to the Rights of the Consumer* David Bryan, 2013 Consumer rights continually evolve and change and this book lays out all of the changes to 2013 in a clear and concise way Areas such as legislation covering the use of credit cards and credit generally plus distance selling regulations are all areas that have been affected by the introduction of European legislation These are covered in depth along with the main body of consumer law

The Law of Consumer Protection and Fair Trading Brian W. Harvey, Deborah L. Parry, 1992 **Consumer Protection Law** Geraint Howells, Stephen Weatherill, 2017-09-08 This fully revised and updated second edition of Consumer Protection Law introduces the reader to the substantive law of consumer protection in the United Kingdom the emphasis being on the place of United Kingdom law within an evolving European legal system and also on the need to draw upon comparative experience The book not only seeks to place consumer protection in its purely black letter context but also draws upon wider readings to show that consumer protection law is a complex area of law which reflects and shapes the individual citizen's position within the modern economy **Consumer Protection** Diana Jackson, Alison Smith, 1995 **Protecting consumers - the system for enforcing consumer law** Great Britain: National Audit Office, 2011-06-15 Unfair treatment of consumers ranging from pressure selling to systematic scams by criminals is costing billions of pounds each year but the system for enforcing consumer law is not delivering value for money The overall scale of this so called consumer detriment particularly that caused by doorstep crime is not being properly evaluated leading to the inefficient allocation of resources Although much detriment occurs at the regional and national level incentives are weighted against a coordinated approach which goes beyond local areas While there are no reliable figures NAO estimates the cost of detriment which cannot be tackled at local level is more than 4.8 billion each year Central government provides annual funding of 34 million to tackle crime which crosses the borders between local authorities but this is relatively low compared to the scale of the problem The Department for Business Innovation and Skills estimates that the annual funding for Trading Standards Services will reduce from 213 million to about 140 million 170 million by 2014 affecting action to address this problem The framework for prioritizing and allocating cases introduced by the Office of Fair Trading is not being applied as intended But formal structures for supporting the model are not in place in seven of the eleven regions and there is still a lack of clarity over who should be taking cases forward As a result the OFT has been able to take enforcement action on only two of the 15 cases referred to it in the last two years **Consumer Protection**, 1939 Consumer Protection Diana Jackson, Alison Smith, 1996 *Consumer Protection and the Law* Dee Pridgen, 2003 Consumer protection law, 1991 **Universal's Practical Guide to Consumer Protection Law** Anoop K. Kaushal, 1993 Guidelines for Consumer Protection in the Context of Electronic Commerce OECD, 2000-03-09 The Guidelines for Consumer Protection in the Context of Electronic Commerce are designed to help ensure that consumers are no less protected when shopping on line than they are when they
