Badawy, 1995-04-14 If you're an engineer or scientist who has suddenly been thrust into the world of management you may find yourself thinking that managing people is more of a challenge than your

former highly technical job Veteran management consultant Michael K Badawy couldn't agree more. He says, "The primary problems of engineering and R practical mechanisms that strengthen technologists' management skills issues in career planning and development, decision making and evaluation of engineering and R and strategic thinking and planning skills." Badawy's down-to-earth language and practical examples bridge the gap between theory and practice, making it a snap for both the novice and the initiated to translate theory into everyday solutions. Plus, you'll find career guidance as well as up-to-the-minute coverage of current managerial training programs. A bounty of tables, charts, and diagrams further enhance *Developing Managerial Skills in Engineers and Scientists*, making this volume indispensable to all those technical

professionals interested in becoming 21st-century managers. **Preparing Leadership Educators** Jonathan R. Kroll, 2023-07-03 2023 Silver Winner of the IBPA Benjamin Franklin Award in the Professional and Technical Category. This comprehensive and integrated resource prepares leadership educators to develop their training and facilitation practice that is informed by theory imbued with healthy leadership habits and imparted with time-tested facilitation techniques, particularly experiential learning and reflective dialogue. There are plenty of resources for those who desire to practice leadership more effectively. What has been absent until now is an extensive and accessible compilation of resources and preparatory materials for those who facilitate the leadership training and development of others. Leadership educators are responsible for preparing the next generations of change makers to develop the leadership skills and capacities they need to navigate the challenges in the decades ahead. They engage organizations and communities to become the holding environments and learning laboratories that empower connections of meaning and depth, embolden courageous exploration, and enable needed structural and systemic change. Jonathan Kroll offers this book as a resource to help readers become exceptional leadership educators: those who can empower others to enhance their leadership skills, capacities, and efficacy. Designed to prepare those who are charged with the leadership training and development of others, this book includes two dozen leadership theories, models, frameworks, and topics; an extensive collection of leadership practices and tactics for facilitating powerful training experiences that are infused with experiential learning activities and reflective dialogue. Included with each theory and practice are 40 detailed and easy-to-follow instructions on how to facilitate specific experiential learning activities along with go-to reflective dialogue questions that bring the topics to life and ensure this book serves as a practical resource.
