Disrupting Disruption David Kirp, Marjorie Wechsler, Madelyn Gardner, Titilayo Tinubu Ali, 2022 A compelling account of how US public schools can boost student achievement and close race and class opportunity gaps In recent years the constant drive to fix schools has bred cynicism resentment and at times unbridled anger In a field where camaraderie and collegial relationships are highly valued it is surprising that there is so little sustainable and focused collaboration among schools and school districts on how to improve Is disruption whether by inflicting a discipline and punish regime on our nation's schools or replacing them with charters or vouchers the only way forward In Disrupting Disruption David Kirp and his coauthors look closely at three seemingly ordinary school districts Union Oklahoma Union City New Jersey and Roanoke Virginia that have overcome the fragmentation isolation and lost learning opportunities of the public school system These school districts resemble others across the country where many students come from low income families Yet they have a relentless focus on developing and supporting teachers and engaged students constantly seeking ways to improve the use of data to enhance
