are not just a natural phenomenon but hold a doctorate degree in that respect It s time to stop wondering what it s like to be a success and start knowing The Leader in You has winning advice on how to increase self confidence cultivate a taste for success and much more to create an awesome future Gerry Robert The Millionaire Mindset gerryrobert.com **Virtual Training** Jeb Blount,2021-06-22 Remote learning has been around since the 18th century Caleb Phillips began advertising correspondence courses in the Boston Gazette in 1728 allowing people for the first time to learn new skills no matter where they lived For the past 300 years virtual training in its various formats has been meandering into shore on an inevitable yet slow building tide And then just like that everything changed A global pandemic Social distancing Working from home In an instant the tide became a tsunami The global pandemic accelerated the broad adoption of virtual instructor led training along with awareness that classroom based training is often expensive inefficient and fails to deliver a fair return on investment While it is certainly more challenging to re create the collaborative environment of the physical classroom in a virtual setting virtual training combines the structure accountability and social learning benefits of classroom training with speed agility and significant cost savings Simply put virtual training enables organizations to rapidly upskill more people while generating a far higher return on the training investment Virtual training is also green Studies indicate that virtual training consumes nearly 90% less energy and produces 85% fewer CO2 emissions than classroom training Still the biggest challenge with virtual training and the reason there has been so much resistance to it is historically the experience has been excruciating Not the quality of the curriculum or content Not the talent of the trainer The learning experience There are few people who haven t had the pleasure of sitting through agonizing virtual training sessions Death by voice over PowerPoint delivered by a disengaged instructor has an especially bitter flavor It is the way virtual training is delivered that matters most When the virtual learning experience is emotionally positive Participants are more engaged embrace new competencies and knowledge sticks Participants are more likely to show up to class and be open to future virtual training Trainers enjoy their work and gain fulfillment from making an impact Leaders book more virtual training Organizations more readily blend and integrate virtual training into learning development initiatives This is exactly what this book is about Virtual Training is the definitive guide to delivering virtual training that engages learners and makes new skills and behavioral changes stick Jeb Blount one of the most celebrated trainers and authors of our generation walks you step by step through the seven elements of effective engaging virtual learning experiences Trainer Mindset Emotional Discipline Production Technology Media Visuals Virtual Curriculum Instructional Design Planning Preparation Virtual Communication Skills Dynamic Interactive Training Delivery As you dive into these powerful insights and with each new chapter you ll gain greater and greater confidence in your ability to effectively deliver training in a virtual classroom Once you master virtual training delivery and experience the power of remote learning you may never want to go back to the physical classroom again *Ancestral Mindset* John Daniel,2025-01-14 Ancestral Mindset by thought leader and human relations expert John Daniel offers deep insight into what

motivates us and drives our actions and how we can use that information to better lead influence and collaborate at work and home If human evolutionary history were compressed into a single calendar year with our earliest ancestor arriving on January 1 our transition from hunter gatherers wouldn't occur until the end of December We were hunter gatherers for well over 90 percent of our collective history The key to understanding us is understanding the hunter gatherer neurocircuitry that crafted our human nature In *Ancestral Mindset* John Daniel traces the development of the human brain from the birth of our species and applies his insights to teach leadership and teamwork from an evolutionary neurological perspective Why is your fight or flight instinct on a hair trigger when the boss calls you in Why does receiving advice from a colleague induce a threat state Why does it feel so disproportionately risky to disagree with the team The answers to those questions lie in our collective past As a heart transplant recipient with decades of executive HR experience Daniel knows a thing or two about risk survival and human behavior from the operating room to the board room His unique personal story and voracious appetite for research have led to a text as potentially transformative as it is bursting with information If you are interested in upping your leadership game improving your relationships or just becoming more persuasive *Ancestral Mindset* will help you adapt from the brain down Access your inner hunter gatherer and transform your take on what motivates elevates and convinces It will make you a better leader a better employee and a better Homo sapiens to those around you
