

Opening and closing - via the remote control

33

The concept

The remote control also provides two additional functions beyond the central locking feature:

- ▷ To switch on interior lamps, refer to page 34.

With this function you can also search for your vehicle when parked in an underground garage, for instance.

- ▷ To open the luggage compartment lid, refer to page 34.

The luggage compartment lid will open slightly, regardless of whether it was previously locked or unlocked.

Whenever you unlock or lock the vehicle, you simultaneously deactivate/activate the anti-theft system, disarm/arm the alarm system and switch the interior lamps on/off.

You can have a signal set to confirm that the vehicle's locks have engaged securely. ◀

Master keys with remote control

Persons or animals inside the vehicle may be able to lock the doors from the inside. For this reason, always take the vehicle keys with you so that the vehicle can be opened again from the outside at any time. ◀

If it is no longer possible to lock the vehicle via the remote control, the battery is discharged. Use this key while driving for an extended period in order to recharge the battery. To prevent unauthorized use of the remote control, surrender only the spare key when leaving the vehicle for valet parking, for example. In the event of a system malfunction, please contact your BMW center. You can also obtain replacement keys there. ◀

- 1 Unlock, convenience opening mode, and disarm alarm system
- 2 Lock and secure, arm alarm system, activate interior lamps, disarm tilt alarm sensor and interior motion sensor
- 3 Open the luggage compartment lid, panic mode - trigger alarm

To release

Press the button once to unlock the driver's door.

Press the button a second time to disengage all vehicle locks.
