## Question 1

Membranes are essential components of all cells.

- (a) **Identify** THREE macromolecules that are components of the plasma membrane in a eukaryotic cell and **discuss** the structure and function of each. (6 points maximum; 1 point for each macromolecule + structure, 1 point for each macromolecule + function)

NOTE: Only first three molecules mentioned will be scored.

| Macromolecule                                                                                                                                                                                                                                            | Structure                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Function (must match selected macromolecule)                                                                                                                                                                                   |
