 Wisdom is not a product of schooling but of the lifelong attempt to acquire it Albert Einstein was quoted as saying I think the
 big mistake in schools is trying to teach children anything and by using fear as the basic motivation Fear of getting failing
 grades fear of not staying with your class etc Interest can produce learning on a scale compared to fear as a nuclear
 explosion to a firecracker This book presents a new learning style evident with today's students and addresses accounting
 industry changes as well This textbook is not written as a reference text rather it is written in another form where knowledge
 can be bridged and tested through questions and answers in a multiple choice format To gain most from the text we would
 advise you to read topics relevant to the multiple choices so as to be able to attempt the questions raised The answers to the
 questions are provided towards the back pages of the text The book will not in small measure assist students in preparation
 for their regular academic and professional exams Accounting has evolved over the years especially in the areas of Standard
 setting and adoption of International Financial Reporting Standards around the globe The book basically covers introductory
 parts of basic financial accounting and book keeping It is good starting point for accounting students accountants corporate
