Ndlovu-Gatsheni, Pedzisai Ruhanya, 2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis Its focus is on a very problematic political culture that is proving very hard to transcend At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti colonial liberation struggle in the 1970s Inevitably violence misogyny and masculinity are constitutive of the political culture Economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self styled Chimurenga aristocracy However this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe s ousting from power was preceded by dirty and protracted internal factionalism At the center of the factional politics was the first family Robert Mugabe and his wife Grace Mugabe This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe taking seriously such issues as gender misogyny militarism violence media identity modes of accumulation the ethnicization of politics attempts to open lines of credit and FDI national healing and the national question as key variables not only of a complete political culture but also of difficult transitional politics      **A History of Technology and Environment** Edward L. Golding, 2016-12-08 This book provides an accessible overview of the ways that key areas of technology have impacted global ecosystems and natural communities It offers a new way of thinking about the overall origins of environmental problems Combining approaches drawn from environmental biology and the history of science and technology it describes the motivations behind many technical advances and the settings in which they occurred before tracing their ultimate environmental impacts Four broad areas of human activity are described over harvesting of natural resources using the examples of hunting fishing and freshwater use farming population land use and migration discovery synthesis and use of manufactured chemicals and development of sources of artificial energy and the widespread pollution caused by power generation and energy use These innovations have been driven by various forces but in most cases new technologies have emerged out of fascinating psychologically rich human experiences This book provides an introduction to these complex developments and will be essential reading for students of science technology and society environmental history and the history of science and technology      The Mirror of Literature, Amusement, and Instruction, 1825      Universalist Union, 1845      **Political and Humanitarian Responses to Syrian Displacement** Sarah Deardorff Miller, 2016-10-26 This book examines Syrian displacement since the start of the 2011 conflict It provides information on displacement the scale scope and trends and in depth analysis on how it affects regional politics the role of international organizations responding to the displaced and EU US responses to Syrian displacement It relates Syrian displacement to broader peace strategies arguing

that displacement is not a mere symptom or byproduct of the conflict but a key variable that must be addressed with any peace plan or strategy for ending the conflict and rebuilding Syria Thus the way refugees are dealt with is not just a humanitarian concern but also a political security and economic issue      *Life Forms and Meaning Structure* Alfred Schutz, 2013-10-08 This volume contains a translation of four early manuscripts by Alfred Schutz unpublished at the time written between 1924 and 1928 The publication of these four essays adds much to our knowledge and appreciation of the wide range of Schutz s phenomenological and sociological interests Originally published in 1987 The essays consist of a challenging presentation of a phenomenology of cognition and a treatment of Bergson s conceptions of images duration space time and memory a discussion of the meanings connected with the grammatical forms of language in general a consideration of the relation between meaning contents and literary forms in poetry literary prose narration and dramatic presentation and an examination of resemblances and differences in the inner forms and characteristics of the major theatrical art forms      **Parameters** ,2004
