*Holt Algebra 1* 2003 Holt Rinehart & Winston, Holt, Rinehart and Winston Staff, 2003      **British Books in Print** ,1986  
**Resources in Education** ,1998      **Research on Teaching and Learning Probability** Carmen Batanero, Egan J. Chernoff, Joachim Engel, Hollylynne S. Lee, Ernesto Sánchez, 2016-07-12 This book summarizes the vast amount of research related to teaching and learning probability that has been conducted for more than 50 years in a variety of disciplines. It begins with a synthesis of the most important probability interpretations throughout history: intuitive, classical, frequentist, subjective, logical, propensity, and axiomatic views. It discusses their possible applications, philosophical problems, as well as their potential and the level of interest they enjoy at different educational levels. Next, the book describes the main features of probabilistic thinking and reasoning, including the contrast to classical logic, probability language features, the role of intuitions, as well as paradoxes and the relevance of modeling. It presents an analysis of the differences between conditioning and causation, the variability expression in data as a sum of random and causal variations, as well as those of probabilistic versus statistical thinking. This is followed by an analysis of probability's role and main presence in school curricula and an outline of the central expectations in recent curricular guidelines at the primary, secondary, and high school level in several countries. This book classifies and discusses in detail the three different research periods on students and people's intuitions and difficulties concerning probability: early research focused on cognitive development, a period of heuristics and biases, programs, and the current period marked by a multitude of foci, approaches, and theoretical frameworks.      **Children's Books in Print** R R Bowker Publishing, Bowker, 1999-12      **Cumulated Index to the Books** ,1966      **Forthcoming Books** Rose Army, 2003-12      The Cumulative Book Index ,1980 A world list of books in the English language      Exemplary Instruction in the Middle Grades Diane Lapp, Barbara Moss, 2012-01-27 Offering fresh alternatives to common instructional practices that fail to get results, this accessible, highly practical guide highlights ways to motivate middle school students while enhancing content area learning.
