Frontiers Planet Prize 2023 - Mobilizing Breakthrough Solutions for a Healthy Planet Idan Segev, Jc Burgelman, 2025-09-22 The ecological balance required for living healthy lives is changing on planet Earth and we humans play a critical role in it Scientists from around the world have mapped nine areas that are critical for the Earth's ecological stability

as described by Professor Johan Rockström and Owen Gaffney in their book *Breaking Boundaries*. These are called the nine planetary boundaries and crossing these boundaries might lead to irreversible environmental change that threatens living healthy lives on a healthy planet. Now it is the time to act with hope and determination. Many scientists around the world are already working on finding solutions to prevent our planet from crossing these boundaries. They are developing practical scientific solutions and technological breakthroughs to mobilize widespread global action at the scale needed to preserve our planetary health. In 2023 the Frontiers Planet Prize gave its first awards to celebrate and support the work of researchers who are leading the most impactful solutions with measurable effects to help humanity save our ecosystem. Dive into this Collection to hear from these champions from all over the world who were acknowledged in the first edition of the Frontiers Planet Prize in 2023. They will tell you about their latest breakthrough research covering everything from forest regrowth to dietary changes of people, the concept of blue carbon and much more. Let them inspire and motivate you to help save our planet.

Dickens and the Virtual City Estelle Murail, Sara Thornton, 2017-10-14. This book explores the aesthetic practices used by Dickens to make the space which we have come to know as the Dickensian City. It concentrates on three very precise techniques for the production of social space: counter mapping, overlaying and troping. The chapters show the scapes and writings which influenced him and the way he transformed them, packaged them and passed them on for future use. The city is shown to be an imagined or virtual world but with a serious aim for a serious game. Dickens sets up a workshop for the simulation of real societies and cities. This urban building with is transferable to other literatures and medial forms. The book offers vital understanding of how writing and image work in particular ways to recreate and re-enchant society and the built environment. It will be of interest to scholars of literature, media, film, urban studies, politics and economics.
