Tesón,2006-07-24 This book offers a comprehensive and sustained critique of theories of deliberative democracy **The Economic Consequences of the Dutch** Christiaan van Bochove,2008 Between 1550 and 1800 the Northern Netherlands went through a period of intense economic development This did not leave the surrounding regions untouched International trade blossomed tens of thousands of foreign workers found employment in the Netherlands and many millions of guilders were channelled abroad to finance foreign commercial undertakings and government policies This book offers the first systematic analysis of the international impact of Dutch economic development and investigates the economic consequences of Dutch dominance in the areas bordering the North Sea By using a wide variety of sources and literature Christiaan van Bochove describes the international flows of goods people and money focussing attention on the effects on the prices of everyday goods the wages of labourers and interest rates This book shows how by the end of the eighteenth century the development of the Dutch economy had turned the North Sea region into an integrated spatial economy that operated at the frontier of what was technologically and institutionally possible *Economies of Representation, 1790-2000* Leigh Dale,Helen Gilbert,2007 This volume documents the links among trade colonialism and forms of representation Examining trade in commodities as diverse as illicit drugs liquor bananas disease tourism adventure fiction and modern aboriginal art as well as cultural exchanges in politics medicine and literature the contributors contest the view of trade as an equaliser of cultures places and peoples promoted by some modern economists demonstrating instead the ways in which commerce has created and exacerbated differences of power *China's Cultural Trade Strategy* Luo Libin,2023-08-04 This book aims to provide theoretical and empirical interpretations of certain

phenomena in the development of China's cultural industry Using the film and television industries as the major cases the author proposes suggestions on China's ongoing development of foreign cultural trade The author argues that China is well positioned to take full advantage of the opportunities of globalization to develop its cultural industry in a leapfrog manner China's rapid economic growth drives the country's development from a small cultural market to a large one Since it is a middle income country its cultural industry still has a relatively large potential to grow The study on China's foreign cultural trade strategy can contribute to the growing needs of people for a better life and enhance China's cultural confidence With an explanation of existing practices this book also aims to make recommendations on China's strategy for developing foreign cultural trade in the era of globalization This book will be a good read for students researchers and scholars of Chinese studies East Asian studies and culture economics and those interested in China's film and television industries
