Anatomy of a Train Wreck Ruth Leys, 2024-12-05 A history of priming research that analyzes the field's underlying assumptions and experimental protocols to shed new light on a contemporary crisis in social psychology In 2012 a team of Belgian scientists reported that they had been unable to replicate a canonical experiment in the field of psychology known as priming The original experiment performed by John Bargh in the nineties had purported to show that words connoting old age unconsciously influenced or primed research subjects causing them to walk more slowly When subsequent researchers could not replicate these results Nobel winning psychologist Daniel Kahneman warned of a train wreck looming if Bargh and his colleagues could not address doubts about their work Since then the inability to replicate other well known priming experiments has helped precipitate an ongoing debate over what has gone wrong in psychology raising fundamental questions about the soundness of research practices in the field *Anatomy of a Train Wreck* offers the first detailed history of priming research from its origins in the early 1980s to its recent collapse Ruth Leys places priming experiments in the context of contemporaneous debates over not only the nature of automaticity but also the very foundations of social

psychology While these latest discussions about priming have largely focused on methodology including sloppy experimental practices inadequate statistical methods and publication bias Leys offers a genealogy of the theoretical expectations and scientific paradigms that have guided and motivated priming research itself Examining scientists intellectual strategies their responses to criticism and their assumptions about the nature of subjectivity Anatomy of a Train Wreck raises crucial questions about the evidence surrounding unconscious influence and probes the larger stakes of the replication crisis psychology s status as a science *Anesthetic-Induced Neurotoxicity and Neurocognitive Impairment of Vulnerable Brains* Yingwei Wang,Zhongcong Xie,Jiaqiang Zhang,2023-11-02 The Oxford Handbook of Vowel Harmony Nancy A.
