Short stories

1. All is fair in love and war (Jan van tonder):
 - the story is about Edwill, Helena and Waldemar, and they are in a love triangle.
 - Edwill and Lita have a plan to get Waldemar and Helena away from each other. En die plan kom by Edwill op toe die Afrikaanse onderwyser hulle die storie van Helena van Troje vertel.
 - "In die klas het die Afrikaanse onderwyser hulle eendag die storie van Helena van Troje vertel en van die houtperd waarin soldate weggesteek is sodat hulle die stad onopgemerk kon binnegaan. En daar en dan het Edwill 'n plan gekry: hy sou met Waldemar vriende maak."

Karakters:

- ↘ Helena - Herinner ons aan klassieke karakter Helena van Troje
- ↘ Edwill - Verlief om Helena. Beraam plan om haar hart te wen.
- ↘ Waldemar - aantreklik, goeie rugbyspeler, nie goed met kommunikeer/woorde nie, Helena se kêrel
- ↘ Lita - Edwill se suster. Help Edwill om Helena se hart te wen.

Die aanvangsoomblik is wanneer Edwill besef dat hy verlief is op Helena en dit met sy sussie deel. Ons sien dat die spanning begin bou wanneer Lita beweer dat hulle die Achilleshiel in die verhouding opgespoor het.

insident waar Edwill aanbied om Helena se boeties besig te hou sodat sy meer tyd saam met Waldemar kan deurbring en Helena

Textbooks for Diverse Learners Carolyn McKinney, 2005 Child Youth and Family Development Research Programme

Psychosocial Pathways Towards Reinventing the South African University Sabrina Liccardo, 2020-11-02 This book proposes a conceptual empirical framework for exploring forms of continuity and change along psychosocial pathways in South African universities. It illustrates how the psychosocial pathways are grounded in the symbolic narratives and knowledges of young scientists, engineers and architects, all interlocutors in the research from which this book is based. Alala Mamorotwa, Welile Odirile Kaiya, Amirah Takalani Nosakhele Naila Ambani, Khanyisile Itumeleng Ethwasa and Kgnaya provide collective standpoints in the multiplicities within and between the lived lives and told stories of young Black South African women in Science, Technology, Engineering and Mathematics (STEM) fields. In doing so, this compelling work advances possibilities for demythologising scientific endeavour as a white male achievement and shifting knowledge communities across gendered racialised class and national divides. This book presents an innovative narrative methodology utilising the myth of the Minotaur to examine the state of the university at the heart of the hierarchical labyrinth in post-apartheid South Africa. Throughout the work, the author wrestles with and self-reflexively highlights her own positionality as a white middle class South African woman to examine how this affects the production of this research in ways which serve to preserve the colonial knowledge system. With the rise of the Rhodes Must Fall and Fees Must Fall student movement in South Africa, demanding for the fall of institutionalised racial hierarchies, the author uses the cover image of narrative formations in the spirit of exploration to think with and through undulating networked forms that could possibly forge new psychosocial pathways towards decolonising and reinventing South African universities. This work offers a unique conceptual and methodological resource for students and scholars of psychosocial and narrative theory as well as those who are concerned about the politics of higher education both in South Africa and in other contexts around the world. **South African**

national bibliography, 1999. Classified list with author and title index. Professional Learning Conversations Lorna M. Earl, Helen Timperley, 2008-02-29. This is the first book in the series *Professional Learning and Development in Schools and Higher Education*, edited by two experienced, committed and skilled educationists from different parts of the world but with converging values and viewpoints. The result is a rich mélange of authors from the USA, Australia, South Africa, Canada and New Zealand, all of whom focus on the use of evidence-informed decision making in schools and classrooms. This focus makes for an unusual collection which acts as an antidote to change agendas which are entirely results-driven. The book provides evidence from a variety of countries of how system leaders, teachers in schools and higher education must now manage as part of their endeavours to provide the best possible learning and achievement opportunities for all students. What makes this book unique is its engagement with the realities of the challenge of evidence-informed conversations which all too quickly become activity traps as teachers are steered away from evidence towards adopting short-term pragmatic or ideological solutions.
