Emily Dwass, 2019-10-15 Why do so many women have trouble getting effective and compassionate medical treatment? *Diagnosis Female* examines this widespread problem with a focus on misdiagnosis and gender bias. The book zeroes in on specialties where women are more likely to encounter particularly troubling roadblocks: cardiology, neurology, chronic diseases, and obstetrics/gynecology. All too often when doctors can't figure out what is going on, women receive a diagnosis from the all-in-head column; this pattern is even worse for women of color who may face significant challenges in medical settings. Throughout the work, Emily Dwass profiles women whose stories illustrate how medical practitioners often dismiss their claims or disregard their symptoms. Because women were excluded from important medical research for centuries, doctors don't always recognize that male symptoms and female symptoms can vary from issue to issue. Even today, most diagnostic tests and treatment plans are based on studies done on men. Throughout the book, women state that their voices do not matter or, worse, their concerns are greeted with skepticism or simply ignored when they seek help. The results can be devastating and long-lasting. Examining the bias inherent in the system, Dwass offers measures women can take to protect their health and receive better care. She offers advice too for the medical community in addressing the problem so that outcomes can improve all around. If you're a woman and you seek medical care, this book is a must-read. Your health depends upon it.

Medical Visions Kirsten Ostherr, 2013-04-11 This book explores 120 years of medical image making to explain how visual representations came to play a central role in medical education and practice. She demonstrates how medical images acquire cultural meaning and influence shaping professional and popular understandings of health and disease.

Who the Hell Are We Fighting? C. Michael Hiam, 2019-07-16 A tightly written narrative history. Harvard magazine. It was an enigma of the Vietnam War: American troops kept killing the Viet Cong and were being killed in the process, and yet the Viet Cong's ranks continued to grow. When one man, CIA analyst Sam Adams, uncovered documents suggesting a Viet Cong army more than twice as numerous as previously reckoned, another war erupted this time within the ranks of America's intelligence community. This clandestine conflict, which burst into public view during the acrimonious lawsuit *Westmoreland v CBS*, involved the highest levels of the U.S. government. The central issue in the trial, as in the war itself, was the calamitous failure of our intelligence agencies to ascertain the strength of the Viet Cong and get that information to our troops in a timely fashion. The legacy of this failure, whether due to institutional inertia, misguided politics, or individual hubris, haunts our nation. And Sam Adams' tireless crusade for honest intelligence resonates strongly today. To detractors like Richard Helms, Adams was an obsessive zealot; to others, he was a patriot of rare integrity and moral courage. Adams was the driving force behind the CBS ninety-minute documentary *The Uncounted Enemy*, produced by George Crile and hosted by Mike Wallace. *Westmoreland* brought a lawsuit seeking 120 million in damages against Adams and Wallace in what headlines around the country trumpeted as the libel trial of the century. *Westmoreland* dropped his suit before the case could be sent to the jury. *Who the Hell Are We Fighting?* is the first serious narrative history of Adams' controversial discovery of the Vietnam numbers.

Playing Doctor Joseph Turow, 2010-08-26 Joe Turow's *Playing Doctor* disquiets and challenges the reader's intellect with cogent analysis of the forces that have shaped television's portrayal of doctors and the medical world. For that alone it is a fantastic read. But Dr. Turow also pleases the mind with well-written and amusing stories, interviews, and behind-the-scenes anecdotes that bring to life in an eminently readable style the fascinating world of TV medicine.

David Foster, M.D., supervising producer, writer, and medical consultant for *House*. Joseph Turow takes us behind the scenes of such hit television series as *ER*, *Grey's Anatomy*, and *House* to reveal the complex relationship viewers have with their beloved fictional caregivers. Turow carefully probes the history of TV medical series and presents a compelling argument for telling more truthful medical stories in the future to reflect and address the precarious state of our health care system today.

Neal Baer, M.D., executive producer of *Law Order: Special Victims Unit*. The great contribution of Turow's book in addition to providing a highly readable and smart overview of medical shows over the years is to examine the consequences of the gap between the reality of medical care and the often romanticized heroic depictions on television. This would be a very good book for professors to use in teaching a range of courses in communications studies, from introductory courses to more specialized classes on health and the media.

Susan Douglas Catherine Neafie Kellogg, Professor Arthur F. Thurnau, Professor Communications Studies Department Chair, University of Michigan. *Playing Doctor* is an engaging and highly perceptive history of the medical TV series from its inception to the present day. Turow offers an inside look at the creation of iconic doctor shows as well as a detailed history of the programs, an analysis of changing public perceptions of doctors and medicine, and an insightful commentary on how medical dramas have both exploited and shaped these perceptions. Drawing on extensive interviews with creators, directors, and producers, *Playing Doctor* is a classic in the field of communications studies. This expanded edition includes a new introduction placing the book in the contemporary context of the health care crisis as well as new chapters covering the intervening twenty years of television programming. Turow uses recent research and interviews with principals in contemporary television doctor shows such as *ER*, *Grey's Anatomy*, *House*, and *Scrubs* to illuminate the extraordinary ongoing cultural influence of medical shows. *Playing Doctor* situates the television vision of medicine as a limitless high-tech resource against the realities underlying the health care debate, both yesterday and today.

Joseph Turow is Robert Lewis Shayon Professor at the Annenberg School for Communication, University of Pennsylvania. He was named a Distinguished Scholar by the National Communication Association and a Fellow of the International Communication Association in 2010. He has authored eight books, edited five, and written more than 100 articles on mass media industries. He has also produced a DVD titled *Prime Time Doctors: Why Should You Care?* that has been distributed to all first-year medical students with the support of the Robert Wood Johnson Foundation. Praise for the first edition of *Playing Doctor*: With *Playing Doctor*, Joseph Turow has established himself as one of the foremost analytic historians of the interplay
