Clarke,2025-03-04 This book critically examines the rise of the higher education reform movement often referred to as the completion agenda which since the early 2000s has sought to restructure core aspects of the community college experience Using community colleges from across nine U S states as practical examples it explores

the major higher education reforms including dual enrollment the demise of developmental education corequisites and performance based funding Against the popular view that support for such policies is tied to neoliberalism it argues for a more nuanced understanding of the complicated and often indistinct ideological foundation of the reform movement demonstrating that supporters and detractors alike draw on similar concepts such as equity student success and affordability This complication is further clarified through an account of the history processes functions and institutions that paved the way for the advent of the higher education reform movement This book is vital reading for anyone interested in the future of community colleges and higher education More generally this book will particularly appeal to scholars researchers and educators working in higher education educational reform and educational policy *Restoring Dignity in Public Schools* Maria Hantzopoulos, 2016 For many students in urban public schools the routines of standards based instruction and frequent testing remove the possibilities for sustained inquiry and critical engagement in school and with the larger world *Restoring Dignity in Public Schools* demonstrates how urban public schools can create thriving authentic centers of learning Drawing from rich narratives of human rights education HRE in action the author shows how school leaders can create an environment in which a culture of dignity respect tolerance and democracy flourishes The book examines the dynamics of HRE in practice defines its constituent elements and explains how these components work in tandem to produce schooling that encourages young people to critically interact with the world around them and imagine different alternatives for the future This timely book provides a viable alternative to the currently favored strategies of increased testing privatization and disciplinary control Book Features A counternarrative to the mainstream discourses of failing public schools in the United States Policies and practices of human rights education in action including the experiences of students and teachers A framework for school leaders to create a climate of dignity for marginalized students Ethnographic research conducted at Humanities Preparatory Academy a public high school in New York City This book provides what most of us don't have hope that a school based on human rights can actually exist in urban education It will inspire grassroots activists and educators alike to envision something tangible to fight for Sally Lee executive director Teachers Unite The testimonies in this book remind us that schools can in fact be transformational communities This is a work of head and heart a call to reimagine schools as sites of critique and collaboration purpose and possibility Bill Bigelow *Rethinking Schools* [Focus On: 100 Most Popular Fantasy Anime and Manga](#) Wikipedia contributors, [Helping Children Learn Mathematics](#) Robert Reys, Mary Lindquist, Diana V.
