fought about and what drove them to violence In their battles over money and sex couples were in effect testing stretching and enforcing gender roles Gender and Justice will interest social and legal historians for its explanation of how the working class of fin de si cle Paris went about their lives and navigated the judicial system Gender studies scholars will find Ferguson s analysis of the construction of gender particularly trenchant Holly Grout **Directors and Their Films** Brooks Bushnell,1993 This is the most comprehensive reference work available anywhere ever to 1 films and their directors and 2 directors and their films Part one is by director Each entry lists films years of release alternate titles and when appropriate the director s pseudonym Part two is a listing of over 108 000 films from A directed by Jan Lenica to Zyte from Rene Leprince giving a director for each *Revolution, Counter-Revolution and Revisionism in Postcolonial Africa* Alice Dinerman,2006-09-27 This groundbreaking study investigates defining themes in the field of social memory studies as they bear on the politics of post Cold War post apartheid Southern Africa Examining the government s attempts to revise postcolonial Mozambique s traumatic past with a view to negotiating the present Alice Dinerman stresses the path dependence of memory practices while tracing their divergent trajectories shifting meanings and varied combinations within ruling discourse and performance Central themes include the interplay between past and present the dialectic bet **Film Genre for the Screenwriter** Jule Selbo,2014-07-25 Film Genre for the Screenwriter is a practical study of how classic film genre components can be used in the construction of a screenplay Based on Jule Selbo s popular course this accessible guide includes an examination of the historical origins of specific film genres how and why these genres are received and appreciated by film going audiences and how the student and professional screenwriter alike can use the knowledge of film genre components in the ideation and execution of a screenplay Explaining the defining elements characteristics and tropes of genres from romantic comedy to slasher horror and using examples from classic films like Casablanca alongside recent blockbuster franchises like Harry Potter Selbo offers a compelling and readable analysis of film genre in its written form The book also offers case studies talking points and exercises to make its content approachable and applicable to readers and writers across the creative field Double Jeopardy Virginia B. Morris,2014-07-15 Murder fascinates readers and when a woman murders that fascination is compounded The paradox of mother lover or wife as killer fills us with shock A woman s violence is unexpected unacceptable Yet killing an abusive man can make her a cultural heroine In Double Jeopardy Virginia Morris examines the complex roots of contemporary attitudes toward women who kill by providing a new perspective on violent women in Victorian literature British novelists from Dickens to Hardy in their characterizations contradicted the traditional Western assumption that women criminals were unnatural The strongest evidence of their view is that the novelists make the women s victims deserve their violent death Yet the women characters who commit murder are punished because their sympathetic Victorian creators had internalized the cultural biases that expected women to be passive and subservient Fictional women like their real life counterparts were doubly guilty in defying the law they also defied their

gender role Because they were unwomanly they were thought worse than male criminals more vicious and more incorrigible At the same time they often got special treatment from the police and the courts simply because they were women These contradictory attitudes reveal the critical significance of gender in defining criminal behavior and in fixing punishments Morris provides literary and historical background for the novelists ideas about women killers and traces the evolving notion that abused or misused women were capable of using justifiable if unforgivable violence She argues that the criminal women in Victorian literature epitomize the ambivalent position of women generally and the particular vulnerability of a deviant minority Her book is a valuable resource for readers concerned with criminology literature and feminist studies
