Silas knew that his translator had recognised it How could this alien speak his language Or had his translator picked up on a foreign language Silas aimed a stun gun toward the alien and pulled the trigger It connected before bouncing off the alien suit How was that possible What sort of armour were the aliens wearing that could remove the effect of a stun gun up close Silas pummelled him with his fists only to be shoved against the wall while the alien s large and dark body loomed over him Silas swallowed knowing he would not survive this The aliens were much too strong and their advanced technology far outmanoeuvred theirs In one last futile attempt Silas lifted his right knee in a quick move hoping the alien was just as sensitive in his nuts as a human male But the suit protected him and made Silas grunt in pain as his knee was bounced down again Silly human the alien said It almost sounded as if he was laughing at Silas expense Silas knocked his head against him but all he accomplished was to be flipped around and pushed face first against the wall
