Green Technologies: Concepts, Methodologies, Tools and Applications Management Association, Information Resources, 2011-03-31 Green Technologies Concepts Methodologies Tools and Applications assembles the most up to date collection of research results and recent discoveries in environmental and green technology This comprehensive anthology covers a wide range of topics i ICMLG2013 Proceedings of the International Conference on Management, Leadership and Governance ,2013 Corporate Real Estate Asset Management Barry Haynes, Nick Nunnington, Timothy Eccles, 2017-04-28 The second edition of Corporate Real Estate Asset Management is fully up to date with the latest thought and practice on successful and efficient use of corporate office space Written from an occupier s perspective the book presents a ten point CREAM model that offers advice on issues such as sustainability workplace productivity real estate performance measurement change management and customer focus In addition new case studies provide real life examples of how corporations in the UK USA Hong Kong and Abu Dhabi actively manage their corporate real estate The book is aimed at advanced undergraduate and graduate students on corporate real estate facilities management and real estate courses and international MBA programmes **Strategy for Sustainable Competitive Advantage** Ian Chaston, 2012 Due to the adverse outcomes of the recent global recession and the public deficit crisis in the USA and Europe Western companies can expect flattening or declining sales in their domestic markets They will also face growing competition as Chinese firms seek to block the activities of foreign companies in their domestic market and expand their own operations in overseas markets Survival and growth for Western companies is unlikely to come from sustaining current business practices based upon utilization of conventional approaches to strategic management success will depend on exploiting new knowledge to stay ahead of competition This book examines the strategic issues associated with the entrepreneurial utilization of new knowledge to create innovative products and services accompanied by the development of leading edge highly productive internal organizational processes Through the use of appropriate theories and illustrative case examples the text is designed to assist managers in Western organizations and business school students understand how to counter the increasing threats that are posed by the globalization of companies from emerging countries such as the BRIC nations **Future Flooding and Coastal Erosion Risks** Colin R Thorne, Edward Evans, E. Penning-Rowsell, 2007-01-10 Over 200 billion worth of assets are at risk around British rivers and coasts and those risks are likely to increase over the next 100 years due to changes in climate and in society Sir David King Government Chief Scientific Adviser This book presents a comprehensive insight into the flooding system spanning multiple disciplines across different sectors of the flood and flood management professions It forecasts the manner in which flooding and coastal erosion risks may increase during the 21st century due to climate change Facilities Management and Corporate Real Estate Management as Value Drivers Per Anker Jensen, Theo van der Voordt, 2016-10-04 Facilities Management FM and Corporate Real Estate Management CREM are two closely related and

relatively new management disciplines with developing international professions and increasing academic attention Both disciplines have from the outset a strong focus on controlling and reducing cost for real estate facilities and related services In recent years there has been a change towards putting more focus on how FM CREM can add value to the organisation This book is driven by the need to develop a widely accepted and easily applicable conceptual framework of adding value by FM and CREM It presents the state of the art of theoretical knowledge and empirical evidence about the impact of buildings and facilities on 12 value parameters and how to manage and measure these values The findings are connected to a new Value Adding Management model The book is research based with a focus on guidance to practice It offers a transdisciplinary approach integrating academic knowledge from a variety of different fields with practical experience It also includes 12 interviews with practitioners shedding light as to how they manage adding value in practice This is a much needed resource for practitioners researchers and teachers from the field of FM and CREM as well as students at both undergraduate and postgraduate level

Aligning Strategy and Sales Frank V. Cespedes,2014 Most firms face a wide gap between their strategic goals and their sales and other go to market efforts Aligning these activities is or should be an important component of competitive advantage for entrepreneurs and established companies Yet for most it isn't This book is about aligning strategy and go to market efforts It starts by explaining why many sales problems in companies are really strategic alignment issues It helps managers understand and diagnose both the overt and hidden costs of not aligning strategic goals with sales initiatives and why getting better at selling typically requires more than a motivational speech sales force reorganization new incentives or a good training seminar It outlines a process for articulating strategy in ways that people in the field can understand and in ways that help strategy formulators understand the required sales tasks inherent in strategic plans for the enterprise Given a coherent strategy the book provides a framework for analyzing and managing the core levers available to firms when they seek to align selling behaviors with sales tasks and examines each lever Readers will learn how to synchronize strategy and sales activities across the organization and get value from improving their firm's performance in the following areas How to move from a strategic vision to an integrated selling plan How to build a sales organization to match strategy How to create and maintain the optimal infrastructure and processes Publisher's description

Family Business Transformation Stefan Märk,Mario Situm,2024-06-17 Family businesses play a pivotal role in the global economy and their successful development is of utmost importance This first volume of the Contemporary Issues in Family Business Entrepreneurship series focuses on the topic of family business transformation which is causing drastic changes in companies strategies and business models

Decisions to adapt or change family business strategy and or the business model are always associated with risk Family Business Transformation integrates work on the broad topics of transformation strategy development business model development with the study of family businesses to provide family business owners managers and entrepreneurs much needed recommendations from best practice examples and or empirical findings that can support decision making in regard to the future direction of their companies This book calls for a specialized examination of the social interactions among stakeholders substantially expanding classical management theory Scholars of family business entrepreneurship and strategic management institutional libraries and postgraduate students will find it an essential read and benefit from its insights

Management of International Institutions and NGOs Eduardo Missoni,Daniele Alesani,2023-08-31 This second edition of Management of International Institutions and NGOs covers all key topics in global governance from a unique management perspective It analyzes the management challenges associated with international cooperation rather than the more commonly explored political or economic lenses This text is structured to enable students to connect theory with practice beginning with the main management frameworks developed in the context of corporate and national public nonprofit organizations and adapting them to the specificity of international institutions and international non governmental organizations This leads to the identification of a tailored approach to international organization management based on their institutional and operational settings stakeholder groups core business staff profiles and financial arrangements The authors then connect this theory with practice by linking frameworks to several case studies and best practices of organizations currently experimenting with management systems and tools with case studies including the World Bank and the Gates Foundation This edition has been extensively revised and updated with an expanded conceptual framework inclusive of systemic theories of organization new cases throughout and new chapters on leadership supply chain and operations and human centered digitization This comprehensive textbook is a must own resource for students and academics involved with studying and working with international organizations

Human Resource Strategy Peter A. Bamberger,Ilan Meshoulam,2000-02-15 Applying an integrative framework the authors review 20 years worth of empirical and theoretical research in an attempt to reconcile often conflicting conceptual models and competing empirical results This book presents much of the relevant research in the context of the critical strategic decisions that executives are often forced to make with

regard to human resource investments and developments

Cloud Native Architecture Fernando Harris, 2024-05-30 How to plan design manage build and run monoliths and microservices in an agnostic scalable and highly available cloud native architecture with Kubernetes KEY FEATURES Learn about cloud computing s origins and business motivations exploring various interpretations emphasizing flexibility integration and efficiency Establish a plan for cloud success focusing on culture teamwork skill development and adapting organizational processes like Agile and DevOps Utilize this plan to develop and manage cloud based applications securely and efficiently on Kubernetes for optimal performance DESCRIPTION The book Cloud Native Architecture explains how to plan manage build and run monoliths and microservices in an agnostic scalable and highly available cloud native runtime such as Kubernetes This is done by effectively applying DevOps principles through the tactical use of CNCF tools You will start by learning about cloud native technology s history and business reasons This will help you understand its five key pillars open source containers distributed architectures operational benefits and DevOps integration We will introduce a framework for adopting cloud native best practices focusing on technical and cultural changes You will learn how to adapt processes like DevOps Chaos Engineering Automation and API First We will cover automating infrastructure with tools like Prometheus and Grafana using Kubernetes for container management and designing applications with microservices Practical exercises will include setting up CI CD pipelines with Jenkins and ensuring Kubernetes security By the end of this book you will be empowered to navigate the Cloud Native landscape confidently equipped with the knowledge and practical skills to design develop deploy and migrate applications for the modern cloud era WHAT YOU WILL LEARN Learn about cloud native s background and its impact on culture and processes Understand Kubernetes concepts components and best practices with an agnostic framework Design and build monoliths incrementally on Kubernetes following twelve factor app principles Transition from monoliths to microservices using specific tools for lifecycle management Address Kubernetes security during application development and deployment WHO THIS BOOK IS FOR This book is for developers architects and solution consultants who are now exploring cloud native architecture principles for design and development with Agile and DevOps to modernize existing applications or create brand new cloud native products TABLE OF CONTENTS 1 History and Business Drivers 2 Five Different Cloud Native Perspectives 3 The Cultural Shift Introducing a Framework to Succeed 4 People Who is Doing What 5 Processes How Should We Do It 6 Technology Where Are We Running It 7 Technology What Are We Building 8 Technology Transition from Monolith to Microservices 9 Technology Addressing Kubernetes Security

The Execution Premium Robert S. Kaplan, David P. Norton, 2008-08-04 In a world of stiffening competition business strategy is more crucial than ever Yet most organizations struggle in this area not with formulating strategy but with executing it or putting their strategy into action Owing to execution failures companies realize just a fraction of the financial performance promised in their strategic plans It doesn t have to be that way maintain Robert Kaplan and David Norton in The Execution Premium Building on their breakthrough

works on strategy focused organizations the authors describe a multistage system that enables you to gain measurable benefits from your carefully formulated business strategy This book shows you how to Develop an effective strategy with tools such as SWOT analysis vision formulation and strategic change agendas Plan execution of the strategy through portfolios of strategic initiatives linked to strategy maps and Balanced Scorecards Put your strategy into action by integrating operational tools such as process dashboards rolling forecasts and activity based costing Test and update your strategy using carefully designed management meetings to review operational and strategic data Drawing on extensive research and detailed case studies from a broad array of industries The Execution Premium presents a systematic and proven framework for achieving the financial results promised by your strategy *Strategic Planning for Managers*
