He fights his way through countries and continents where he encounters various dangers but also friends who accompany him to his destination. Summary: In 2034 the first space company succeeds in bringing soil samples from Mars to Earth. Scientists start by extracting the rock samples and encounter microbes. Humanity celebrates this discovery until the world suddenly changes. Plants die and food becomes scarce. The wealthy retreat into biospheres and leave the rest of humanity to themselves. Jim, a medical student and his family are trying to survive the onset of the apocalypse in the house. But the riots and looting are increasing dramatically. So Jim is looking for a hiding place for himself and his family in the nearby forest to escape the pack. When he returns, all people have disappeared without a trace.
