What's Making Our Children Sick? Michelle Perro, Vincanne Adams, 2017 Exploring the links between GM foods glyphosate and gut health With chronic disorders among American children reaching epidemic levels hundreds of thousands of parents are desperately seeking solutions to their children's declining health often with little medical guidance from the experts What's Making Our Children Sick convincingly explains how agrochemical industrial production and genetic modification of foods is a culprit in this epidemic Is it the only culprit No Most chronic health disorders have multiple causes and require careful disentanglement and complex treatments But what if toxicants in our foods are a major culprit one that if corrected could lead to tangible results and increased health Using patient accounts of their clinical experiences and new medical insights about pathogenesis of chronic pediatric disorders taking us into gut dysfunction and the microbiome as well as the politics of food science this book connects the dots to explain our kids ailing health What's Making Our Children Sick explores the frightening links between our efforts to create higher yield cost efficient foods and an explosion of childhood morbidity but it also offers hope and a path to effecting change The predicament we now face is simple Agroindustrial innovation in a previous era hoped to prevent the ecosystem disaster of DDT predicted in Rachel Carson's seminal book in 1962 Silent Spring However this industrial agriculture movement has created a worse disaster a toxic environment and consequently a toxic food supply Pesticide use is at an all time high despite the fact that biotechnologies aimed to reduce the need for them in the first place Today these chemicals find their way into our livestock and food crop industries and ultimately onto our plates Many of these pesticides are the modern day equivalent of DDT However scant research exists on the chemical soup of poisons that our children consume on a daily basis As our food supply environment reels under the

pressures of industrialization via agrochemicals our kids have become the walking evidence of this failed experiment What s Making Our Children Sick exposes our current predicament and offers insight on the medical responses that are available both to heal our kids and to reverse the compromised health of our food supply *Islam and Biomedicine* Afifi al-Akiti,Aasim I. Padela,2022-08-27 This book showcases multidisciplinary research at the intersection of the Islamic tradition and biomedicine Within this broad area of scholarship this book considers how Islamic theological constructs align with the science and practice of medicine and in so doing offer resources for bridging the challenges of competing ontological visions varied epistemic frameworks and different theologies of life and living among the bodies of knowledge By bringing together theologians medical practitioners and intellectual historians the book spurs deeper conversations at the intersection of these fields and provides fundamental resources for further dedicated research **Saving Farmland** Nathalie Chambers,2015 Saving Farmland shows how sustainability ecosystems and biodiversity transcend the paradox of man made losses Chambers details how to overcome obstacles choose models identify vital farmland build community and raise funds Stories of commonly shared land international trusts regained farmland and several real heroes provide inspiration that a future is possible where local farming and sustainable development will deliver good eating forever COVER *The Fight Against Monsanto's Roundup* Mitchel Cohen,2019-01-08 We are being poisoned and this book is sounding a well informed alarm Read it Get educated and then join the thousands rising up against those who care more for profit than the health of our bodies and our earth Eve Ensler New York Times bestselling author Chemical poisons have infiltrated all facets of our lives housing agriculture work places sidewalks subways schools parks even the air we breathe More than half a century since Rachel Carson issued Silent Spring her call to arms against the poisoning of our drinking water food animals air and the natural environment The Fight Against Monsanto s Roundup takes a fresh look at the politics underlying the mass use of pesticides and the challenges people around the world are making against the purveyors of poison and the governments that enable them The scientists and activists contributing to The Fight Against Monsanto s Roundup edited by long time Green activist Mitchel Cohen explore not only the dangers of glyphosate better known as Roundup but the campaign resulting in glyphosate being declared as a probable cancer causing agent In an age where banned pesticides are simply replaced with newer and more deadly ones and where corporations such as Monsanto Bayer Dow and DuPont scuttle attempts to regulate the products they manufacture what is the effective practical and philosophical framework for banning glyphosate and other pesticides The Fight Against Monsanto s Roundup The Politics of Pesticides takes lessons from activists who have come before and offers a radical approach that is essential for defending life on this planet and creating for our kids and for ourselves a future worth living in **The Evolution of Agricultural Technology** PAULA. JOHANSON,2018-07-01 This book chronicles how since the Neolithic era of the Stone Age agricultural tools evolved from pointed digging sticks to electron microscopes Weeds evolved into wheat carrots and more as humans selected and designed foods People farmed

sustainably since the last Ice Age with fire and fish traps and more recently agriculture has evolved to produce more for a growing worldwide population Learning about problems from the past and the future that agricultural technology is meant to solve will help readers understand how applying critical thinking can change the world *Critical Epidemiology and the People's Health* Jaime Breilh, 2021 How can we create a more rigorous and effective epidemiology *Critical Epidemiology and the People's Health* invites readers to the next great paradigm in public health by promoting a progressive transdisciplinary intercultural community building approach one that is radically divergent from the presiding object based empiricist mode of thinking Grass-Fed Nation Graham Harvey, 2016-05-05 For years we've been told that traditional foods are unhealthy because of their saturated fat content In place of grass fed meat grass fed dairy products and eggs from hens running on pasture we now mostly eat grain fed meat and processed factory foods and we've witnessed an epidemic of disease from type 2 diabetes to heart disease and cancer Modern agriculture has locked us into an unhealthy vicious circle with degraded foods pouring from an overstretched impoverished landscape There's a simple remedy the grass fed movement We can make sure that the meat dairy foods and eggs we buy come from animals grazing on or running in pasture as they always used to This will also put life back into our soils and wildlife back onto our farmland Graham Harvey agricultural advisor to BBC Radio 4's *The Archers* lays out all the arguments for grass fed food why it's good for us and why it's good for the planet
