Animal Nutrition Manual:

Practical Animal Nutrition Vishal Mudgal, 2012 Complete information in a comprehensible way is the watchword of the book. The book consists of three parts and each part provides a structured approach to learning by covering all the topics in a uniform and systematic format. The topics under each part have been carefully designed to conform to the VCI syllabus. Part I deals with principles of animal nutrition and feed technology which comprehensively covered about the proximate principles and estimation of common macro elements like calcium and phosphorus. It also includes about the cell wall fractionation and estimation of common toxic principles present in feeds. Part II deals with applied animal nutrition I where the feeding on ruminant animals specifically the cattle, buffalo, sheep and goats in their different physiological stages are discussed and requirements of different nutrients as well as formulation of their respective ration has been taken care of. Part III deals with applied animal nutrition II where the feeding on non ruminant animals specifically the swine and poultry in their different physiological stages are discussed and requirements of different nutrients as well as formulation of their respective diet has been taken care of. In addition to that principles of mixing and compounding of feed has also been considered. The book is similarly useful for the post graduate students of animal sciences, teachers and scientists of animal nutrition discipline, personnel of feed industry involved in feed manufacturing and marketing, field veterinarian, animal husbandry extension worker and progressive animal farmers and animal lovers.

BSAVA Manual of Companion Animal Nutrition and Feeding Noel C Kelly, JM Wills, 1996-06-13 This BSAVA Manual is a handbook for veterinary practitioners and students, biological scientists and nutritionists with an interest in nutrition and feeding of companion animals. It addresses the ever increasing dimension of dietary management in both health and disease in the daily conduct of companion animal practice. The book aims to bridge the knowledge gap between theoretical nutrition and the practical feeding of healthy or sick animals. It systematically covers food types, dietary needs and appropriate feeding of dogs, cats, other small mammals, reptiles, birds and fish in health and sickness.
