Cold War Art Worlds Simone Wille, 2025-11-05 During the Cold War the Central European capital city Prague along with other previously less noticed locations in the polarised post war world emerged as a key site where an art world of particular importance for artists from South Asia developed By emphasising cultural mobility as a catalyst for exchange and network building this book challenges and complicates assumptions about Cold War binaries of East and West and the polarisation between so called totalitarian regimes and free cultures Positioning Prague as a nexus where South Asian modernisms intersected with multiple peoples histories and ideologies in the post World War II era it offers a narrative of decolonisation that rejected rigid systemic alignment in favour of participation across blocs by prioritising migratory aesthetics over nationalist parochialism Well researched and rich in archival materials this book proposes new ways of writing art histories and makes a significant contribution to both Cold War studies and critical global modernism studies Museum of Foreign Literature, Science and Art ,1833 Bibliography of Art and Architecture in the Islamic World (2 Vol. Set) Susan Sinclair, C.
